FATAL AUTO RACE STOPS LIKE EVENT

Criticism Causes Vanderbilt to Call Off the Grand Prize Race.

MAY GO TO SAVANNAH LATER

Management Declares Criticism "Unjust and Unwarranted."—Automobile Racing Has Been Dealt a Death Blow.

New York, Oct. 6.—As a direct result of the criticism of the Vanderbilt cup race last Saturday, which cost the lives of four persons and the injury of more than a score of others, the grand prize, scheduled to be run over the same course on October 15th, was officially called off tonight by W. K. Vanderbilt, Jr., the referee.

The announcement was made from the offices of the Motor Cups Holding Company, of which Mr. Vanderbilt is president, under whose auspices the grand prize was to have been run. There is a possibility that the race may be held at a later date in some other section of the country and Savannah, which had already made overtures for the event, is regarded by automobile racing enthusiasts here as likely to be selected. As a result of the decision to abandon the race here the view expressed tonight that automobile racing in this vicinity has received a death blow.

The decision to call off the race was reached at a meeting today of the executive committee of the Motor Cups Holding Company with the entrants. The company asked to be relieved of the responsibility of conducting the race and the entrants adopted a resolution granting the request.

What was described as the "unjust and unwarranted criticism" of the Vanderbilt cup race was cited by the management in a statement as the reason for abandoning the contest.

Tenders for the race have been made by several other cities, including Savannah. It was said at the Motor Cups Holding Company's office tonight that the bid of Savannah for the contest was forwarded by the automobile club and mayor of that city.

May Race at Savannah.
Savannah, Ga., Oct. 6.—Mayor Tideman received a telegram tonight from W. K. Vanderbilt, Jr., advising him that the grand prize automobile race, which was to have been run over the Long Island Motor Parkway October 15th, had been called off. Mr. Vanderbilt suggested to Mayor Tideman that he thought Savannah had a splendid chance to get the big race for the grand prize course here, and advised that a proposition be made at once for handling the event.

Officials of the Savannah Automobile Club, which handled the grand prize race here last year, are giving Day, 1908, took the matter up with the automobile club of America tonight. Mayor Tideman wired Secretary Fosdick in New York that the Savannah Club is prepared to enter into negotiations at once for the race and that a delegation will be sent from Savannah to New York if the proposition will be entertained. The Savannah Automobile Club officials are enthusiastic over the prospect of landing the race, and an article that the course here is in fine condition.

GOVERNOR DRAPER NAMED.

Harmony in Republican Ranks in Massachusetts—Ticket Named.
Boston, Mass., Oct. 6.—Precedent ruled the Republican State convention here today and Governor Eben S. Draper was named by acclamation for a third term. It has been many years since a Republican governor has been refused a third nomination in this State.

All other State officers selected today were re-nominated with the same unanimity.

The full ticket follows: Governor, Eben S. Draper; lieutenant governor, Louis A. Frothingham; secretary of State, William M. Olin; State treasurer and receiver general, Elmer A. Stevens; attorney general, James M. Swift; State auditor, Henry E. Turner.

There was not the slightest jar to the smoothness and precision with which the programme of the convention was carried out as arranged by the leaders last night.

The platform adopted besides favoring a permanent tariff board strongly approved the measure just issued. The cotton crop was valued at nearly \$150,000,000, which is approximately one-fifth of the value of the entire crop produced in the eleven States comprising the cotton belt.

ARRESTS IN LOS ANGELES.

In Connection With Times Building Dynamite.

Los Angeles, Cal., Oct. 6.—Two men were arrested today in connection with the hunt for the Times building dynamite. They are Charles Mehr and Frank Russell. Mehr, according to the report turned in by the arresting officer, declared that "the unions have something else up their sleeves."

Police Captain Plummer tonight said that the men who actually blew up the Times probably would not be found in San Francisco. The arrest to be made at some point far distant from the ruins today.

The seventeenth body was taken from the ruins today.

THREE COTTON MEN INDICTED

Men of Firm of Steele, Miller & Co., Charged With Misusing Mails to Forward Bills of Lading Allegedly.

Aberdeen, Miss., October 6.—Indictments were formally announced in the United States Circuit Court here, charging J. H. Miller, J. C. Steele and H. C. Linde, members of the bankrupt cotton firm of Steele, Miller & Company, of Corinth, Miss., with having misused the mails in the furtherance of an alleged plan to defraud through the issuance of forged bills of lading. J. I. McKnight, confidential secretary of Mr. Miller, also is named party to the alleged conspiracy. All of those indicted are under bond for trial next Monday.

In brief, these are the surface developments as a result of the Federal inquiry into the so-called bills of lading frauds involving the Corinth firm and in their ramifications, extending from the United States through France, Germany and other European countries. The extent of the alleged frauds has been estimated at \$3,000,000.

Tonight, following a conference between Steele and Linde and attorneys representing the trustees of the firm, it is current report that other indictments are to follow. It has been charged, it is said, that the methods of the Corinth concern was known to several of those with whom they dealt and that immediately before the insolvency was announced, settlement was made with preferred creditors.

Steele, Miller & Company were declared bankrupt and a receiver appointed on the petition of a cotton importing firm of Bremen, Germany, alleging the wholesale issuing of bogus bills of lading on April 23.

Arrest of Miller.
Birmingham, Ala., Oct. 6.—Information was received in Birmingham tonight that J. H. Miller, of the bankrupt firm of Steele, Miller & Company of Corinth, Miss., was arrested in Decatur, Ala., today. He was taken to Hinesville, where he gave bond for \$15,000 for his appearance in Aberdeen, Miss., next Monday.

Mr. Miller was arrested on a warrant based on the certified copy of an indictment found against him by the Federal grand jury now in session at Aberdeen. He is charged with using the mails to defraud, in that he mailed forged bills of lading on cotton at Corinth to New York.

FINLEY AN CRAIG SPOKE.

Before Southern Appalachian Good Roads Convention.

Knoxville, Tenn., Oct. 6.—The Southern Appalachian Good Roads Convention closed its second annual convention this afternoon, leaving the place of meeting for the next year in the hands of the executive committee to decide. The principal address of the day was made by President W. W. Finley, of the Southern Railway, who spoke of improved highways and the enlargements of opportunities which came to those contiguous to good roads. He expressed the opinion that the greatest result of road improvement would be an increase of the "back to the farm" movement.

"The fundamental suggestion I have to make," he said in conclusion, "is that we should apply the principles of conservation to our road building policy. We should conserve our energies and our financial resources and adopt such policies as will eliminate waste of either or both, as far as possible."

Other speakers were Congressman R. W. Austin, of Tennessee; M. V. Richards, of the land and industrial department of the Southern Railway; M. O. Eldridge, government roads expert, and W. J. Craig, of the Atlantic Coast Line.

The association elected the following officers: President—Dr. Joseph Hyde Pratt, Chapel Hill, N. C. re-elected. Secretary—W. L. Spoon, Burlington, N. C. re-elected.

Among the members of the executive committee chosen were P. H. Haynes, Winston-Salem, N. C.; W. C. Riddick, Raleigh, N. C.; H. B. Varner, Lexington, N. C.; C. P. Ambler, Asheville, N. C.; C. P. St. P. Wilson, Richmond, Va.; and E. C. Chambers, Asheville, N. C.

CHILDREN'S DAY OBSERVED.

In Connection With Opening at New Cathedral.

New York, Oct. 6.—Today was Children's Day in connection with the ceremonies attending the opening of St. Patrick's cathedral and 8,000 of them raised their voices in responses of the masses held in the cathedral. Cardinal VanNutt, the papal legate, pontificated at the solemn office, while Cardinal Gibbons, Archbishop Farley and a score of other church dignitaries sat by in the sanctuary. Tomorrow Cardinal Logue will pontificate at St. Patrick's cathedral at high mass for the religious. This promises to be one of the most picturesque services of the week.

GEORGIA'S GREAT CROP.

Two Hundred Million in Cotton and Corn Alone.

Atlanta, Ga., Oct. 6.—Two hundred millions of dollars is the value placed on the cotton and corn crops produced in Georgia during the past year, in the annual report of the Commissioner of Agriculture just issued. The cotton crop was valued at nearly \$150,000,000, which is approximately one-fifth of the value of the entire crop produced in the eleven States comprising the cotton belt.

Following the final ballot motions by Underwood, of Cumberland, and Coffey, of Watauga, for the nomination of Wood to be made unanimous, was carried with him.

Colonel Wood is 67 years old, a Confederate veteran and has several times represented his county in the General Assembly.

TAYLOR CHOSEN IN TENNESSEE

Nominate Unanimously For Governor or By Regular Democrats—Temperance Plank Remains the Same—Thomas Nominated.

Nashville, Tenn., Oct. 6.—United States Senator Robert L. Taylor was this afternoon nominated for governor by the regular Democratic Convention although his senatorial term does not expire until 1912. No other name was presented to the convention, the demand being for Taylor and no one else.

Senator Taylor at 7 P. M., appeared in the Convention Hall and after an ovation, accepted the nomination.

In the main the convention was harmonious throughout, though there was a little breeze when Senator Taylor endeavored to have the platform amended as to the liquor question. The Talcott amendment provided for a referendum for the liquor question to a vote of the people, but the amendment was finally voted down, the original platform being adopted, the temperance plank reading as follows:

"The Democratic party has at all times been the consistent friend of temperance reform in Tennessee and other Southern States."

"We therefore, declare that the temperance question should not be an issue in a gubernatorial campaign."

"The great controlling issue in this campaign is whether Tennessee shall be turned over to a boss rule in the Republican machine in a bargain by which the public offices of the State are to be sold to the highest bidder for barter and sale between politicians and party bosses."

"The reputation of this humiliating attempt to barter away the honor of the State is the first duty of every patriotic Tennesseean."

The platform is mainly devoted to State affairs. It is understood headquarters will be opened at once. Senator Taylor will take the stump tonight.

J. W. Thomas, of Weakley county, was nominated for railroad commissioner for the Western District.

NINE BODIES RECOVERED.

Seamen Who Were Victims of Accident on the Hudson River.

New York, Oct. 6.—For the first time since the swamping of the barge from the battleship New Hampshire on Saturday night as the result of which 20 or more of Uncle Sam's men lost their lives, North River began today to give up its dead. Nine bodies, eight of which have been identified, were picked up today, nearly all of them within a half mile of the scene of the accident.

The identified dead were P. P. White, Robert Karl, T. J. Urhlin, P. F. Bakeman, Moses Hopkins, R. E. Werner, Guido Amazepe and W. A. Richardson.

The unidentified body taken from the river was nearly five miles from where the New Hampshire's men were drowned. The clothing bore the name E. N. Dubee. No sailor of that name has been reported missing from any ship of the fleet.

All the bodies are now on the hospital ship Solace, where they will be held until they are taken away for burial by relatives.

The fleet of battleships which has been anchored in the Hudson since the Virginia capes is breaking up. The North Dakota steamed away today and the others will all depart within 48 hours.

LISBON FIGHTING MAY BE RENEWED

Thousands Still Loyal to Portuguese Monarchy Camp Around the Capital.

KING MANUEL AT GIBRALTOR

Republicans Proceeding to Control the Country—Details of Fierce and Bloody Fighting—Rebels Means of Attack.

Lisbon, Oct. 6.—While the city of Lisbon is in the hands of the revolutionists and a republic has been proclaimed, with Theophile Braga, as provisional president, and other prominent republicans constituting the monarchy there are many thousands in and around the capital who are loyal to the monarchy. The monarchists include a portion of the Lisbon troops and troops massed in entrenched camps about the city. Thus far these have refused to ally themselves with the revolutionists, and the provisional government is taking steps to enforce allegiance.

The people of Lisbon are ignorant of the events in the provinces and therefore it is not known whether the movement is broad enough to sweep the country. Nevertheless the republicans are proceeding as though the transformation of the monarchy into a republic was an accomplished fact.

For months past, preparations have been going on for the overthrow of the King and it had been definitely arranged to raise the cry of revolution Wednesday. It so happened that the King was about to take up his residence at Cascaes, and the warships were ordered to proceed there. The navy, which is the chief support of the revolutionists, thereupon decided to act immediately, otherwise the defensive arrangement of the country would be able to offer no assistance in carrying out the plan.

Monday night at midnight the republican chiefs, accompanied by numerous partisans went to the barracks of the sixth regiment of infantry. The doors were immediately thrown open to the populace and arms were distributed to them. The barracks of the first regiment of artillery were also visited and the guns dragged forth. The revolutionists marched to the highest point in Lisbon, a fine strategic point, where artillery was mounted, threatening the town.

The government troops immediately took up a position in the center of the town about two miles distant from the revolutionists where heavy guns and Maxim guns were placed to oppose the revolutionists. Meanwhile the insurgent cruiser Adamaster steamed up in front of Lisbon, ready for a bombardment, while the cruiser Rafael proceeded down the river, making her station opposite the seamen's barracks, the men of which having joined the revolt, was surrounded by a force of municipal guards.

The cannonading commenced and the whole town trembled to its foundations. A regiment of municipal cavalry made a brilliant charge in an endeavor to take the insurgents encampment near the railway, but were met with a terrible fire from the artillery. This regiment was almost annihilated, only three men escaping.

The revolutionists showed extraordinary courage and sustained an attack on all sides by superior forces for two days and nights. On Tuesday the Adamaster shelled the Necessidades Palace and King Manuel and the Queen Mother Amelle were forced to escape to Cascaes from which place they went to Mafra.

The same night the Adamaster and Rafael shelled the center of the town, doing much execution among the monarchist forces and finally the latter were proclaimed in the afternoon and the republican flag hoisted on the public edifices.

The provisional government has issued a communication to the foreign powers notifying them of the proclamation of the Portuguese republic. No serious obstructions are expected to be offered by the provinces to the new regime. The government has already appointed civil governors for the different provinces.

The Brazilian president-elect, Marshal Hermes Fonseca, motored through the streets today with the provisional president. Both were enthusiastically greeted by the people. Order has been restored throughout the greater part of the city.

Patrols are guarding the thoroughfares.

WILD TUMULT IN CONVENTION

Police Called to Quell Trouble Among Massachusetts Democrats—Fights on Platform—Second Ballot the Cause.

Boston, Oct. 6.—The Democratic State Convention broke out in a wild tumult at the conclusion of the announcement of an indecisive second ballot for a nominee for governor early this morning. Delegates swarmed up over the press seats and upon the platform.

Chairman Thayer called for the police and 20 officers struggled through the mass of delegates to the stage. The officers succeeded after some difficulty in pushing all except several ardent delegates back upon the floor of the convention hall.

A second effort of the officers to clear the stage resulted in the starting of several fights. Pistols were used freely and at 12:25 A. M. half a dozen mix-ups were in progress with the chairman unable to secure order or entertain any of the motions being yelled from various parts of the hall.

At 12:30 A. M. a recess of 20 minutes was declared by the chairman. Scarcely any one left the hall. The recess was at its height and the announcement of a recess had little effect upon the delegates, who were pounding one another in and about the press boxes. The newspaper men were driven from their section. The reserves were called in to get the announcement of a second ballot which was taken very slowly under the Australian system of voting, showed that Congressman Eugene N. Foss still had a lead, notwithstanding the supporters of Charles H. Hamlin had done their best to effect the election.

Valley gained more than twice as many votes as Foss, yet did not secure enough to get the nomination, while Foss was within four votes of securing the nomination.

The vote on the second ballot: Total number of votes cast \$53. Necessary for choice 442. Eugene N. Foss, of Boston, 438; James H. Vahey, Waterbury, 425; Chas. S. Hamlin, Boston, 20.

The possibility of the convention quieting down to enable another ballot being taken after the recess appeared very remote when the 20 minutes was up, the chairman having been unable up to that time to secure sufficient backing, through delegates or police, to aid in the work of carrying on the convention.

As a last resort a conference of the leaders of the convention was called just before 1 o'clock to attempt to agree upon a new candidate for governor.

The police and more sober minded delegates succeeded in quieting the combatants who had attempted to take possession of the stage and the convention awaited in an orderly manner the result of the conference.

The platform adopted was a feature. It called for the removal of the tariff on food stuffs and other necessities of life; adoption of a constitutional amendment providing for a Federal income tax, election of United States Senators by direct vote; a uniform parcel post system throughout the Nation; the initiative and referendum; improved conditions for laboring men; the women's suffrage; and a bill for Henry Cabot Lodge, and economy in State expenditures.

Frederick W. Mansfield, of Boston, was nominated for governor by the delegates to the Democratic State Convention, at 1:30 this morning, the nomination being by acclamation.

The name of Mansfield was offered as a compromise, following a conference, in which James H. Vahey and Representative Eugene N. Foss agreed to withdraw from the contest, to save bitterness and to better the chances of the success of the party at the polls. It was agreed that the name of Mr. Mansfield should be placed in nomination, with the understanding that he will withdraw within 72 hours, and that the selection of the party's candidate shall then be made by a special committee. Mr. Vahey made a strong speech in which he withdrew his own name and nominated Mansfield.

The balance of the state ticket was made up as follows: Secretary of State, A. Z. F. Charest, Holyoke; treasurer, General B. F. Peach; Lynn; auditor, Charles Paine, Barnstable; attorney general, John Ratigan, Worcester.

CONSERVATION CONGRESS.

Will be Addressed by Col. Roosevelt at Atlanta Today.

Atlanta, Ga., Oct. 6.—The Southern Conservation Congress assemblies here tomorrow for a two days' session and with an attendance of nearly 500 delegates representing all Southern and a few Northern and Western States. The objects of the conference which is under the auspices of the Atlanta Chamber of Commerce, are fourfold, as follows:

To discuss the resources of the South as a foundation for its prosperity.

To furnish definite information concerning resources, their development, use and preservation.

To furnish such information as will enable the South to frame policies which representatives in State and Federal governments may put into effect to conserve the South's resources.

To promote the organization of State conservation associations which will co-operate with the National conservation association.

Gifford Pinchot is scheduled to make the principal address on Friday morning. Col. Theodore Roosevelt will deliver a brief address Saturday afternoon. The South's minerals, soils and forests, with statistics and suggestions as to how to secure the best results therefrom will be discussed respectively by three experts from Washington. Dr. C. Willard Hayes, chief geologist; Dr. W. J. McGee, soil-water expert of the Department of Agriculture, and J. G. Peters, of the forest service. Other speakers include Amos L. Ponder, of New Orleans; Dr. A. M. Soule, and Dr. Alfred Akerman, of Athens, Ga., managing director, and Clarence J. Owens, Montgomery, Ala., commissioner of agriculture and immigration for the Congress.

Edwin L. Quarles, of Washington, secretary of the Congress, has been here several days.

The "bargain hunter" is no longer the woman who merely haunts the stores. She is the woman who watches the ads and goes to the stores strictly on business.

Shot at Burglar.

It was reported at police headquarters at 11 o'clock last night, that some one had attempted to enter the residence of Mr. Parker, on Ann, between Fifth and Sixth street, but was frightened away by a heavy discharge from Mr. Parker's shotgun. Sergeant Grimsley answered the call and made a search for the would-be burglar, but found no trace of him. Mr. Parker stated to the officer that he heard some one making a noise in the rear of the house, as if he were trying to open the window, and that he got to the window in time to fire his shotgun at a Michigan retreating form.

MICHIGAN REPUBLICANS.

Osborn Nominated for Governor—Peaceful Convention Held.

Detroit, Mich., Oct. 6.—Peace reigned on the floor of the Republican State Convention today and the internecine strife that had been expected by many did not develop, unless it appeared in carefully guarded committee rooms.

In the platform adopted President Taft's administration was commended the Payne tariff bill tacitly endorsed and Congress was congratulated for the many beneficial measures enacted.

Chase Osborn, Republican nominee for governor, eulogized Colonel Roosevelt, asserted his belief that the power of the former president as a teacher and preacher was greater as a private citizen than as President. The convention did not select the sentiment for applause.

Congressman Diekmann linked the names of Taft and Roosevelt as two of the world's greatest men, saying that "without the one the work of the other would have been incomplete and impossible."

This sentiment was more to the liking of the delegates who shouted their approval. The only contest was for the nomination for attorney general which was won by Franz Kuhn, the incumbent, against four competitors.

The other nominations were by acclamation, the incumbents being again chosen.

They were John E. Bird, for Justice of the Supreme Court; Frederick C. Marindale, for secretary of state; Albert E. Steeper, for State treasurer; Huntley Russell, for commissioner of the State land office, and O. B. Fuller, for auditor general.

Chase Osborn and John Q. Ross already had been selected in the primaries held four weeks ago as candidates for governor and lieutenant governor.

AMERICAN BANKERS YESTERDAY

Savings Bank and Clearing House Sections Meet.

Los Angeles, Cal., Oct. 6.—The savings bank section and the clearing house section of the American Bankers' Association were the only ones that met today.

The business session of the savings bank section considered the reports of the committee on the first savings banks and on savings bank laws.

Addresses were made by President William R. Croer, of Cleveland, Secretary William Hanhart, of New York, and Edmund D. Fisher, of New York.

The clearing house section was presided over by Sol Wexler, of New Orleans. It is the largest section of the United States; Edmund D. Fisher, of New York, Stoddard Jess, of Los Angeles and John K. Otley, of Atlanta read papers. The convention ends tomorrow.

PLURAL MARRIAGE THEME.

Speakers Declare Polygamy Must Cease in Mormon Church.

Salt Lake City, Utah, October 6.—When the semi-annual conference of the Church of Jesus Christ, Latter Day Saints (Mormons) opened today, President Joseph F. Smith and his counselors, B. A. Lund and John Henry Smith, addressed the gathering on plural marriages among church members since the issuance of the manifesto of 1890, declaring these marriages contrary to the rules of the church. The speakers declared that polygamy must cease.

The open declarations closely follow the ex-communication within a week of two members of the church heretofore in high standing. One was a bishop who had married polygamously and the other was a patriarch, who had officiated at a polygamous wedding.

NEW LODGE AT SPENCER.

Deputy Grand Chancellor Nutt Busy With the Pythians.

Spencer, N. C., Oct. 6.—With the assistance of State Deputy Grand Chancellor James D. Nutt, of Wilmington, and degree team from Salisbury lodges Nos. 100 and 24, Knights of Pythias, Spencer Lodge No. 222 was organized Tuesday night with a promising membership. After the necessary initiation the following officers were duly elected: Chancellor commander, M. F. Lampkin; vice chancellor commander, E. C. Ennis; prelate, L. F. Cruse; master of work, W. J. Trent; master of finance, G. S. Gresham; keeper of record and seal, E. J. Devereaux; master of exchequer, A. W. Hicks; master at arms, W. L. Hess; inside guard, K. H. Wright; outside guard, J. R. Prettyman.

The organization meeting was a most enthusiastic one and it is expected that the lodge will soon number one hundred members, as Spencer is a great fraternity town.

SIMS FOR EMBEZZLEMENT.

Man Who Attempted Suicide Is Now Under Arrest.

Washington, Oct. 6.—John Sims, aged 35 years, who made a sensational attempt at self destruction on Sept. 20, when he went suddenly insane in a physician's office, was arrested today on a charge of embezzlement.

Sims is accused by the Life Insurance Company of Virginia of which he was the Washington manager, of misappropriating \$882 of the company's funds.

Sims was discharged from the Washington asylum hospital yesterday.

Richmond, Va., Oct. 3.—The annual State fair, which is the largest record in point of the number and variety of exhibits, agricultural, industrial, mechanical and commercial, openable larger than that of the opening day last year. Aviator Ralph Johnson, with a Wright machine, made a highly successful flight during the afternoon.

SAVINGS BANK SECTION.

Report of Executive Committee to American Bankers' Association.

Los Angeles, Cal., Oct. 6.—The report of the executive committee of the savings bank section of the American Bankers' Association, made today at the convention of the Association here, reviewed the work of the year and made various recommendations.

The committee reported that at its Atlantic City meeting in May there was an extended discussion upon the matter of segregation of savings deposits, and it was voted that the matter be referred to the executive council with the request that a committee be appointed to consider the matter and to report at the convention at Los Angeles. The matter was taken up at the meeting of the council, but no decision was reached at the time. The report continued:

"The third meeting of the committee was held at Los Angeles on the 3d inst.

"In accordance with the votes of the committee appropriations were asked for of the executive council, and one of \$7,500 and one of \$2,500 (total \$10,000) for the year 1911, for the expenses of the section and the use to which these appropriations were put will be fully reported to you by your secretary, whose accounts have been duly audited by Mr. Latimer as voted.

"Your attention is specially called to the conscientious activities of your committee, reports of which will be made to you in due course. The attendance at committee meetings has been large and enthusiastic, and excellent results have been accomplished by them, special recognition being due to the postal savings bank law committee because of the extraordinary labors put upon them during the past year. The work of the first-named committee was of the highest order, and the enactment into law of a postal savings bank bill was not from any failure on your committee's part in planning before the public the economic and business facts affecting the proposed legislation.

"The work of the savings bank law committee, looking toward a greater uniformity of laws governing savings deposits, speaks for itself in the remarkable complete and clear-cut codification of the laws of the various States governing such deposits compiled by them under the admirable direction of its chairman.

"It is but proper that there should be embodied in this report some special notice of the labor of the committee of the secretary of the section. He has been untiring in his devotion to and interest in its activities, and the section owes no little of its present success to his untiring industry in its behalf."

The report was signed by Alfred L. Aiken, chairman of the committee.

IN BUSY SCOTLAND.

Hum of the Gineries—Confederate Monument—Big Store.

Special Star Correspondence. Laurinburg, N. C., Oct. 6.—The citizens of Scotland were never more busy than at present. Their fields are white with King Cotton. All the gineries are running night and day, where such is possible. The general hum of the gineries is heard in every direction. The average number of bales because of the increased acreage. Practically all the cotton ginned has already been placed upon the market, but the majority of the crop will be held for higher prices.

Under the auspices of the Daughters of the Confederacy, there is being erected at the intersection of Main and Church streets a handsome monument to the Confederate dead. The work has been in progress for several days and will be concluded within a short time.

Mr. Z. V. Page, of Laurel Hill, who for several years has been engaged in the mercantile business at both Laurel Hill and Gibson, is having erected at Gibson one of the largest store buildings between Wilmington and Charlotte. It is 75 by 250 feet, two stories high. This is to take the place of the three stores and four warehouses used at present by Mr. Page in Gibson. The building will be completed and occupied by the first of December.

HEAVIEST RAINFALL IN YEARS.

Wide Portion of Country Extending Over the South Sea in Spots.

Louisville, Ky., Oct. 6.—Deluged by the heaviest continuous rainfall in 40 years, a wide strip of country extending from Eastern Texas, Northeastward across the Northern portions of Louisiana and Mississippi and over parts of Arkansas, Tennessee, Kentucky, Southern Indiana, and Ohio almost to Pittsburgh is in spots an inland sea.

While the rain continues in the northernmost part of this area, the storm has ceased in the southwest, and a cold wave has dropped temperatures 30 degrees.

Only two lives are known to have been lost. Mrs. A. J. Burfield and her grandson were drowned in a rapidly rising stream near Dyersburg, Tenn.

Washouts on railroads in some parts of Kentucky and Tennessee are numerous and many trains are off schedule; the delivery of mail by rural carriers has been abandoned. In some quarters and there has been much damage to farm lands and corn in the shock.

Key West, Fla., Oct. 3.—Funeral services were held here in San Carlos Hall this afternoon over the body of General Francisco Aguilera, the Cuban patriot, which is en route to Havana from New York, where it was disinterred last week for removal to Cuba.

U. S. SUPREME COURT SOON.

Convenes in Washington Monday—Cases of Great Importance.

Washington, Oct. 6.—The Supreme Court of the United States will convene next Monday at noon for one of the most important sessions in its history. During the coming eight months it will have to pass upon cases profoundly involving the industrial and business life of the Nation, and this fact adds importance to the pending changes in the personnel of the great court occasioned by the death of Chief Justice Fuller and Associate Justice Brewer and the retirement of Associate Justice McLean.

Justice Hughes, of New York, has been confirmed in the place of Justice Brewer, and there appears excellent reason to expect that he will be named in place of the Chief Justice, although Associate Justice Harlan, the senior survivor member of the court, has been much spoken of for promotion to the Chief Justiceship. In any event, including Justice Hughes, there will be three new men on this bench during the coming session.

President Taft has said that he will make no recess appointments to the court; this means that the chief justiceship and the place of Justice Moody probably will remain vacant until the regular session of Congress begins in December.

It also means undoubtedly that the three new men on the bench will be chosen by the corporation cases upon which the expected re-argument of tax cases were merely restored to the calendar for re-argument. In ordinary circumstances, this would throw them over for a year or more. The general expectation is that none of the three vacancies will be taken up until all the vacancies in the court are filled, and that then the corporation tax cases will be advanced, and with the other two cases mentioned, will be set for dates relatively early in 1911.

Aside from these celebrated causes, a tremendous amount of work awaits the court at the beginning of its session. Upwards of 40 cases, many of large import, have been assigned for argument next Tuesday, or as soon thereafter as possible. Ordinarily, each justice delivers about 30 opinions during a year; hence if one member were to deliver 40, the other would not be through with it until far into 1912.

COUNTY AUDITING BOARD THE WILMINGTON RETURNS

Regular Monthly Session Held at the Court House Yesterday Afternoon—
Report of County Treasurer
H. McL. Green.

Sitting as an auditing committee, the Board of County Commissioners met in regular monthly session at the Court House yesterday afternoon at 3 o'clock, with Chairman Duncan McEachern presiding, and all members of the board and Mr. Wm. A. Williams, the clerk, in attendance. The board was in session for nearly two hours, during which time, the accounts for the month of September were audited and bills for the same period approved. The report of County Treasurer H. McL. Green was submitted and accepted, being as follows:

Balance on hand September 1st—General county fund, \$2,598.82; special fund, \$97.49; road fund, \$14,057.31; road sinking fund, \$11,693.84; hospital fund, \$245.84.

Receipts—Costs from Recorder's court, \$212.50; jail fees, \$2.20; property tax, \$5,284.32; special tax for and on account of hospital, \$1,500; transfer from general to road fund, \$863.88; schedule B tax, \$459.15; automobile tax, \$26.60; cash from county home, \$13.67; back taxes, \$214.64; error in warrant 36 cents; sale of rock, \$321.50; curbing, \$100; marriage license, \$10; a grand total of \$37,710.46.

Disbursements—By transfer from general to road fund, \$863.88; warrants paid—County home, \$296.98; United Carriages, \$123.50; out door poor, \$344.84; roads and bridges, \$202.80; tax listing, \$210; military, \$300; public building, \$70.37; Superior Court, \$177.80; Recorder's court, \$150; jail, \$198.75; stationery and advertising, \$61.95; election, \$68.95; magistrates, \$28.97; miscellaneous account, \$387.10; county commissioners, \$110; Register of Deeds, \$15.85; attorney, \$83.33; superintendent of health, \$100; coroner, \$275.34; asst. coroner, \$33.70; clerk, \$83.33; janitor, \$55; treasurer's commissions, \$120.11; special fund, coupons, \$7.59; hospital, \$778.12; New Hanover county roads, \$2,522.99, a total of \$7,670.25, leaving a balance of \$30,040.21.

The treasurer also reports that \$209.26 were received in fines from the Recorder's court during the month of September.

It will be noted that in the disbursements \$275.34 is put down as having been paid the coroner. It might be stated that \$200 of this amount was paid to Chemist Withers, of Lee A. M., for the chemical analysis of the contents of the stomach of Young Edward Cromwell, who lost his life in the Rock Springs Hotel fire, in August. A bill of the coroner for holding an inquest over the body of a young man who lost his life during the latter part of the month, while surf bathing at Wrightsville Beach some weeks ago was not allowed, it appearing that the services of the coroner were not needed as it was plain that there was no foul play, though the proper affidavit was filed before the investigation was made.

EXECUTIVE COMMITTEE CALLED.

Will Assemble at 1 P. M. Tomorrow for Consideration of Matters.

Chairman McEachern yesterday issued a call for the Democratic County Executive Committee of New Hanover to assemble at 1 o'clock tomorrow afternoon at the Court House for the consideration of several matters of importance in connection with the pending campaign. One of these matters will be the consideration of the election of a member of the Congressional Executive Committee, carrying out the suggestion of the State Committee and the other will be the arrangements for several campaign speeches that are expected to be delivered here during the latter part of the month by Attorney General Bickett, Senator Overman and perhaps others. A full attendance of members of the committee is desired.

NEWS OF THE SHIPPING.

Schooner John Rose Will Ship New Crew—Danish Steamer Arrives.

The schooner John Rose, which received a cargo of lumber here for New York and will clear today, will ship an entire new crew made up at this port. Since the schooner arrived here one member of the old crew deserted and two others brought suit against the vessel and were later discharged. Capt. Douglass is master of the vessel.

The Danish steamer Annette Furness, Capt. Larsen, arrived yesterday from Villa Rica with cargo of 28,000 tons of sulphur ore to be discharged to the Virginia-Carolina Chemical Company. The vessel and cargo are to Messrs. Alexander Sprunt & Son.

UNIVERSITY DAY.

Alumni Will Gather on Evening of October 12th—A Request.

As previously announced, University Day will be celebrated by the loyal alumni of the institution on the evening of October 12th. The celebration this year will take place in the city instead of at the beach as last season and a large attendance is expected from the one hundred or more University men in Wilmington and this section of the State. All alumni who can attend are requested to send their names at once to Mr. Arthur Cobb, chairman of the committee, which is making the arrangements, the details of which will be announced later.

Land Owners Post Property.

A large number of the land owners in the upper Cape Fear and Black river sections have recently posted their property to paper officers to ward off coopers. As the time for the hunting season approaches the land owners in the sections mentioned are taking special precaution to keep trespassers off, and it is understood that some of the property owners have hired special men to keep on watch.

Steamer Back From Pleasant Trip to Charleston, All on Board Well. Bottom Scraped and Repainted—Other Repairs.

As pearly white and as handsome as of yore, despite a rather tempestuous voyage outside during the day, the steamer Wilmington, Capt. John W. Harper at the helm, poked her nose around the drum tree on the return to her home port from Charleston, S. C., shortly after 7 o'clock last evening, and was soon docked at foot of Market street, after having undergone repairs at the Palmetto port for several days.

On board the boat was a party of Capt. Harper's friends who had accompanied the craft to Charleston and were delighted with the outing. The steamer left Charleston yesterday morning and despite rather heavy weather, made a fine passage around in something over ten hours, exclusive of a brief stop at Southport last evening. While away the steamer had her bottom scraped and repainted while the engine repairs were also made and other improvements added, placing the handsome boat in fine position for the winter's business. Capt. Harper was well pleased with the work done at Charleston and his guests were simply delighted with their outing. Before coming ashore last night the following testimonial and narrative of the trip was unanimously passed.

"We, the undersigned, being the passengers on the steamer Wilmington on the trip from Wilmington to Charleston and return, feel that we would be recreant in our duty without giving voice to our feeling toward the host, the genial Capt. Harper, the captain and owner of the steamer. He was at all times watchful and careful with duties imposed upon him as master, yet always mindful and offering every comfort to them entrusted to his care and keeping.

"Big 'Tuck' Savage, his right bower, has never failed to be on deck and at the lookout while Hans Kure, Melvin Horne, Pat Yopp were great in their positions. Chief Engineer Risley, Mate Bud Mintz and all personnel did their duties well and Kate Stuart was the 'only pebble on the beach.' All who know her love her because all the world loves a hero. Our trip was delightful and while all were glad to be home, yet each of us will 'sign up' for next year's trip. While it was a pleasure to be at Southport, we met by our friends, J. J. Furlong, Geo. Harris and Fred Skipper, together with a token of friendship, known only to those who visit the East room at our guest's house. After a hearty handshaking and our 'labors' about consumed, we continued up the Cape Fear when at a point of Five-Fathom Hole we were apprised of and partook of a bountiful repast.

FISHING AT WRIGHTSVILLE.

Sport Is Unusually Fine—Excellent Opportunities Offered.

Never before have there been so many fish caught by hook and line as are now being landed daily at the beach. Crowds of fishermen go down to the beach every day and night to enjoy the delightful sport, and the great number of fine strings of fish that are brought to town testifies to the fine luck that they are having. It may be that the fish have always been there to be caught, but the fishermen have never before had the opportunity to get out beyond the breakers where the fishing scene is avoided. The Seashore Hotel makes this possible and the fishermen of Wilmington are certainly making the most of the opportunity. Every day fishermen in great numbers can be seen fishing from the end of the pier; some days as many as 100 fish are landed during the day. And everyone seems to have, what in former years would be called "phenomenal" luck. Strings of from 50 to 100 good sized fish are not unusual, and the experienced as well as the inexperienced share in the good luck.

One feature that adds greatly to the enjoyment of a day's fishing at the pier is the Seashore Hotel restaurant which is kept open, and which is conveniently located to the pier. Here one can get an excellent oyster roast or other sea food, and thus the necessity of carrying a lunch is avoided. This feature is especially convenient for those who down for the whole day or who go down late in the afternoon and stay until the late cars at night, as many do.

RECEIVED SAD MESSAGE.

Mr. W. J. Blow Called Home on Account of Death of Father.

The many friends in the city of Mr. W. J. Blow, clerk at The Orton, will regret to learn of the death of his father, which occurred at the family home at Greenville, N. C., yesterday afternoon at 2 o'clock.

The message conveying the sad intelligence was received by Mr. Blow yesterday afternoon and he left for home on the 7 o'clock train last night. It is understood that the deceased had been in declining health for some time. The family will receive the condolences of many acquaintances.

Latest Analysis of Water.

Mr. R. C. Cantwell, superintendent of the waterworks system, yesterday sent out to the physicians a newspaper office of the city a copy of the latest analysis of the Wilmington water supply by the State chemist. The report was received October 4th and is as follows: "Sediment, very slight; color, platinum-cobalt standard, 35; turbidity, silica standard, 0; odor, cold hot alkalinity (in terms of calcium carbonate), alkaline; chloride, 6; nitrogen as nitrates, very slight trace; free ammonia, .014; albuminoid ammonia, .114; colon bacilli in 1 c.c., 0; colon bacilli in 10 c.c., 0; total number of bacteria per c.c., 200; no pollution of alkalinity (in terms of calcium carbonate) in any of the samples.

CASES IN SUPERIOR COURT CONTRACTS FOR UNIFORMS

Business of Yesterday Wound Up by Noon—Four Divorces Granted. Damage Suit Case Will be Taken Up Today.

Except the granting of four divorces there was very little doing in Superior Court yesterday and by noon everything ready for trial yesterday had been disposed of and the afternoon was observed as holiday by the court. This morning an important damage suit case will be taken up and the hearing will probably consume the remainder of the week. The case is that of Eddie M. Bryan against the Hilton Lumber Company, for alleged damages for injuries received at the company's plant. Hon. John D. Bellamy and Geo. L. Paschall, Esq., represent the plaintiff while Davis & Davis appear for the defendant company.

The divorce mill was put to work early yesterday morning and in 35 minutes four were ground out as follows: Mildred M. Charles from E. S. Charles, Jr.; Rachel S. Johnson from Gordon C. Johnson; Lucy H. Cumber from A. A. Cumber, all white, and Ivery McClammy from Fannie McClammy, colored. Appearing for the plaintiffs in the first three cases mentioned was Herbert Pennington, Esq., while the plaintiff in the last named case was represented by James H. Scull, Esq.

The case of W. H. Chadbourn, et al., against the Brunswick Coal & Wood Co., was continued and set as the fourth for trial at the December term; the case of Gibson W. Evans against the Waccamaw Lumber Co., continued and set as the fifth at the December term; Rebecca Cummings against W. J. King, continued and set as the sixth at December term. The following two cases were also continued until the next term: Leger Meyer against J. L. Smith, et al.; New Hanover Trust Co., against Annie Winner, et al. In the case of the U. S. Candy Co. against the Crescent Candy Co., the jury returned verdict in favor of the plaintiff for \$11.15.

The case of Mary E. Irving, et al., against Pennington Jones, et al., an action involving a large portion of property on Wrightsville Sound the value of which will run into the thousands, is set for trial Monday, and if taken up at that time will probably consume the remainder of the week. It was announced that the case of a compromise had been agreed upon, but it seems that the matter was not finally adjusted and that it will yet be heard in the courts. C. D. Weeks, W. B. McCoy and Greer & Koonce represent the plaintiffs, while appearing for the defendants are Robert R. Bellamy, Herbert McClammy, Davis & Davis, Bellamy & Bellamy and J. D. Bellamy & Son.

THE GLOBE RESTAURANT.

Appointment of Receiver Will be Asked Today—Closed Saturday.

Application will be made today to Judge W. H. Whedbee for the appointment of a receiver to wind up the affairs of the "Globe Lunch Room and Restaurant," at No. 113 Princess street, which has been in the hands of the defendant since last Saturday midnight. The petitioner is Mr. W. F. Richter, one of the owners of the business. The action started in Superior Court is entitled W. F. Richter against Matthias Bremer, Paul Gause and W. B. Schuler.

The petition sets out that the plaintiff is indebted to Paul Gause in the sum of \$350, with interest from December 31st, 1910, the same being secured by first mortgage on plaintiff's half interest in the business, personal property and effects thereof; that the defendant Bremer is indebted to W. B. Schuler in the sum of \$1,700.25, with interest from July 1st, 1910, secured by first mortgage on his one-half interest; that Richter and Bremer are indebted on open accounts to divers persons, the amount aggregating \$700; that on October 1st Bremer turned over the keys and surrendered and delivered to defendant Schuler, mortgagee, all his interest in said business, and that the place is now closed pending the foreclosure of said mortgage and winding up and settling the affairs of the said co-partnership. The petitioner therefore prays the appointment of a receiver to take immediate possession and dispose of the business to the highest bidder for cash. A. J. Marshall, Esq., is counsel for the plaintiff.

The defendant Mr. Bremer has filed answer through his attorney, Walter B. Gafford, Esq., admitting all the allegations contained in the petition and joining in the request that a receiver be appointed.

FIVE YEARS OLD.

Southern National Bank Has Reached Another Milestone.

Five years old and as sprightly a youngster as one could find anywhere. The Southern National Bank has just celebrated the fifth year of its usefulness in the Wilmington business community and elsewhere in today's paper the advertising manager of the bank has something of interest to tell the public. Opened for business five years ago, this bank has paid to stockholders \$58,000 in dividends and now has \$55,000 in undivided profits in addition to its original surplus of \$100,000. The total capital, surplus and net profits now amount to \$355,000. Its assets are gilt-edged and the bank is still on the way to even greater achievements in the future. Mr. Chas. N. Evans is president and Mr. J. W. Simpson is cashier. Its officers and directors are among the best known and most successful business men in Wilmington.

COBB AND POISSON.

New Law Partnership With Offices in Masonic Temple, This City.

A card elsewhere in today's paper announces the admittance of Mr. L. J. Poisson, a well known and popular young Wilmingtonian who was recently admitted to practice in the State Courts after having successfully stood the examination before the Supreme Court, to the law offices of Mr. Arthur Cobb under the firm name of Cobb & Poisson. They have offices in the Masonic Temple and practice in the courts of the State and the United States. Both are attorneys well grounded in the profession and the firm should succeed in a large measure.

Southerland, Simon & Co. to Furnish Police and Mr. J. W. H. Fuchs to Equip Firemen With Winter Suits.

After carefully considering the several bids and closely examining the samples of the goods submitted with the bids which were opened at 4 o'clock Tuesday afternoon, the Police and Fire Commission in regular monthly session yesterday afternoon awarded to Messrs. Southerland, Simon & Co. the contract to furnish 37 police uniforms and to Mr. J. W. H. Fuchs the contract to furnish a like number of firemen's uniforms, both contracts being let upon the express condition that the suits be delivered within 30 days from date of the award. The bid of Southerland, Simon & Co. for police uniforms of 16 ounce, Charlottesville material, was \$15.43 a suit, with no extra charge for officers' coats and service stripes. The contract with Mr. Fuchs is for 16 ounce, Oswego serge, at \$12.35 a suit, with no extra charge for officers' coats and service stripes.

The meeting was presided over by Chairman Wm. E. Springer and in attendance were Messrs. James F. Woolvin and R. A. Burnett and Capt. John Barry, members of the commission; Mr. John J. Fowler, clerk; Chief of Police N. J. Williams and Chief Chas. Schnibben, of the Fire Department. After the matter of police and firemen's uniforms had been disposed of the commission proceeded to the consideration of the regular routine matters.

The report of Chief Schnibben showed that during the month of September the fire department responded to eight alarms, causes of same being as follows: Sparks from chimney, 3; oil stove, 2; defective fuse, 1; unknown, 1; accident, 1. The fire losses for the month will not exceed \$1,100. Chief Williams, of the Police department, reported that during the month there were 107 arrests, 48 whites and 59 colored.

Commissioner Woolvin, of the special committee appointed some time ago, to make arrangements to build a new frame for the fire bell at the Fourth and Campbell streets station, reported that the Brunswick Wood & Coal Co., had made drawings of the changes necessary in the reconstruction of the frame, and a communication was read from the company offering to "complete the frame for the fire bell with wood frame, slate the bell and galvanize from cornice to roof and galvanize from cornice to roof." Upon motion of Commissioner Burnett, seconded by Commissioner Barry, the contract was awarded to the Brunswick Wood & Coal Co. with the concurrence of the Board of Audit and Finance. The residents of that section of the city will be glad to learn that at no distance date the lower part of Fourth and Campbell will be so arranged that they can hear the sound of the bell when there is a fire. The meeting adjourned shortly after 5 o'clock.

FOUND NOT GUILTY.

Cases Against Alleged "Tigers" Dismissed by Recorder.

Taking the position that the evidence adduced by the State was not of the character that could or would be believed by the average juror Recorder Furlong yesterday morning instructed Clerk Skipper to write "not guilty" as the judgment of the court in the "blind tiger" cases which had not formerly been disposed of. The defendants in these cases were: W. H. Millan, J. J. Farrow, "Jack" Walters, and Asa Skipper, white, and Snoden Harris, colored. This means the end of the present "tiger" cases. Just one week ago last night the arrests were made, and the time of the court for the week was occupied pretty much with the trial of the cases. It was said yesterday afternoon that there were some 25 or 30 additional cases that could be brought against alleged "tigers" the rest of the special work of Lang Sellers and D. T. Mayer, but as it was held that as their testimony in the other cases could not avail it would be useless to consider them further in working up such cases.

Two negro boys, Teachey and Gause, arrested a few days ago under suspicion that they had stolen some brass fittings, were released yesterday, the owners of the brass not being located. There was nothing else of especial interest in court yesterday.

New Hanover Medical Society.

The New Hanover County Medical Society held its regular monthly meeting last night at the City Hall with Dr. Joseph Akerman, the vice president, presiding in the absence of Dr. R. B. Slocum, who was unable to be present. Dr. Chas. T. Nesbitt, the secretary, was at his post. After the reading and approval of the minutes of the last meeting, and the statement by the secretary that copies of the resolutions adopted at the last meeting relative to the North Carolina Medical College at Charlotte, had been forwarded to every county medical society in the State, the society proceeded to the consideration of routine matters and discussion of matters of especial interest to physicians.

CAROLINA SQUAD ON TRIP.

Play Central University of Kentucky Saturday—The Players.

(Special Star Telegram.) Chapel Hill, N. C., Oct. 6.—The varsity football team left this afternoon for Lexington, Kentucky, where they play their first game of the season away from the "H." The game is scheduled with the Central University of Kentucky, and is considered one of the hardest on Carolina's schedule this year. In the squad this afternoon were Brown, center; Thompson, (captain); McLean and Harker, guards; Garrett, Spalhour and Abernathy, tackles; Williams, Venable and Young, ends; Bell, quarterback; Porter, fullback, and Ruffin, Spencer, Ritch, Calmes, Wakely and Winston, backfield men. Coach Brides and Manager Williams accompanied the team. The game is to be played Saturday and there will be a continuous telegraphic report of the game given to the students in Gerard Hall.

MR. W. G. SALE IS APPOINTED

Local Manager of Western Union Becomes Supervisor of Traffic in North Carolina and Virginia. A Fine Promotion.

General Superintendent B. F. Dilloff, of the Southern Division of the Western Union Telegraph Co., with headquarters at Atlanta, Ga., has just announced a number of appointments under his jurisdiction, among the number being that of Mr. W. G. Sale, manager of the local offices of the Western Union in this city, to be supervisor of traffic for the first division embracing the States of North Carolina and Virginia.

The appointment is effective at once and Mr. Sale leaves this evening on his first business visit in connection with his new post, which will require his presence on the road most of the time with headquarters perhaps in Richmond, Va. While delighted with the deserved promotion in the service, carried in the appointment of Mr. Sale, it is entirely unnecessary to say that there will be very general regret that the promotion will take him and his excellent family from this city, where they are very popular and held in the highest esteem by a host of friends. However, it is pleasing to know that for the present at least they will continue their residence here, though Mr. Sale will be away much of the time.

Mr. Sale has been in Wilmington for the past 15 years. He started his career with the Western Union when a mere lad; came to Wilmington from Lynchburg, Va. and was first employed as an operator in the local offices of the company with which he has grown up and which has just recognized merit, loyalty and devotion in elevating him to officialdom. Mr. Sale was some 12 years ago promoted to the position of chief operator in the local office and for the past eight years has been manager of the Western Union here, at the same time giving the company valuable assistance in all this section of the State. He has a genius for detail combined in proper proportion with executive ability, which has counted in his rapid elevation in the service of the company. During his eight years as manager, the business of the company has doubled and was never upon a more satisfactory basis than now.

Mr. Sale is succeeded in Wilmington by Mr. O. T. Moore, who has been manager of the Memphis, Tenn., office and a gentleman of wide experience in handling the business of some of the larger telegraph centres of the country. He will arrive this morning and will at once take charge of the local office. He is recommended by the retiring manager to the consideration of those with whom the business relations have been so pleasant in the past.

OVERSEER SHOT BY TENANT.

William Leggett the Victim on Farm Near Fayetteville Yesterday.

(Special Star Telegram.) Fayetteville, Oct. 6.—Seven miles west of here today, Chas. Cork, a tenant on the farm of R. S. Leggett, shot and probably mortally wounded William Leggett, a brother and overseer of Mr. R. C. Leggett. Cork was brought here tonight and lodged in jail. Mr. Leggett is at St. Luke's hospital.

Friday, October 7, 1910.

A lady writer who contributes news-
paper articles under the name of "Nix-
ola Greeley-Smith," writes that "the
tightwad husband is the greatest af-
fliction that can befall any woman." All
tight-wads will conclude that she
knows what she is talking about, be-
cause that hyphenated name of hers
indicates that she is attached to some
fellow by the name of Smith.

Says the New York Tribune (Rep.):
"If the Democratic ticket is success-
ful and the Legislature is Democratic,
will it be Charles F. Murphy for United
States Senator?" It is not likely,
but to an individual regardless of de-
cency and honorableness, one should
think Murphy would be an improve-
ment on the besmirched Senator De-
pew, who, by the way, has been giving
himself "the silent treatment" since a
legislative investigation involved him
in the New York insurance scandals.

Just about the time the campaign
opened, the Federal prosecutors in-
dicted several big individuals con-
nected with the Beef Trust. The beef
barons gave bond, the case was con-
tinued and the news was sent out all
over the country that the government
is after the Beef Trust. In the mean-
time, if all the packers in the United
States were in jail, the price of steak
and 30 cents breakfast strips would
not be affected. The fact is, the pack-
ers have been indicted for taking ad-
vantage of laws passed by a Republi-
can Congress so they could do exactly
what they have been indicted for.
They can get indicted every day and
then make money.

It is reported from Oyster Bay that
the Summer rest of President Taft
was greatly disturbed by visits from
numerous politicians and political
"leaders." It is said that the lady
from whom the Taft cottage was rent-
ed also has been annoyed by the great
publicity resulting from having a Pres-
ident as a neighbor. We are sorry vis-
itors disturbed the President's Sum-
mer rest, but in justice to the in-
surgents we have noticed that they can
prove an alibi. For some reason or
other, they haven't bothered Taft with
their presence, but no doubt they have
kept him awake at night, owing to the
way they have been behaving at long
distance.

The Hon. E. J. Justice, ex-Speaker
of the North Carolina House of Repre-
sentatives, is itching to get hold of
either Holton or Butler, and either
one of them willing to take a drub-
bing is invited to meet Justice in a
joint debate at Greensboro on the eve-
ning of October 11th. By the way,
Butler must have been eating "lion
meat," for he is so bold as to be going
around the State rantanquerously boast-
ing that Democratic speakers actually
are afraid to meet him. Butler seems
to be inviting a skinning and there are
several Democratic skinners who can
do the job so completely that there
would not be enough of Mary Ann's
hide left to make it worth tanning.

Those beneficiaries of the tariff who
have smuggled into New York pearls,
diamonds, silks and fancies, purchas-
ed while in Europe, and who have
been caught and made to pay the tar-
riff duties and the penalty of attempt-
ing to defraud their government, now
know who pays the tariff taxes. They
painfully realize that the foreigner
wasn't in it while they were digging
down in their pockets to pay the duty.
We presume Republican deceivers will
now quit telling confiding voters that
we make foreigners pay the expense
of our government by means of a tar-
iff tax, whereas the foreigner fully un-
derstands that American consumers
not only pay the price for foreign
goods but pay the tariff duties before
they can get the goods.

LABOR'S SKIRTS ARE FREE.

None but the enemies of organiza-
tion labor can attribute to it responsibil-
ity for the horrible outrage at Los An-
geles, Cal. No one who knows the
purposes of labor organizations, and
who knows that the very bone and
sinew of America compose those or-
ganizations, will for a moment enter-
tain the idea that organized labor dy-
namited the building of the Los Ange-
les Times, hurling a score of souls into
eternity, maiming innocent humani-
ty, and destroying the valuable prop-
erty of others. The fair minded man will
attribute that deed of hellishness to a
fanatic or an anarchist who may have
been inflamed under circumstances
brought about by labor's honest efforts
to take care of itself.

Organized labor, composed of as
true Americans as any, will be as re-
ady to condemn the Los Angeles horror
as any of the citizens of this free and
law-loving people. The North Caro-
lina State Federation of Labor in ses-
sion at Asheville a few days ago adopt-
ed strong resolutions denouncing that
crime and condemning the Associated
Press for sending out news calculated
to create the impression that organ-
ized labor was responsible for that ter-
rible example of heinous lawlessness.
It is gratifying to North Carolinians
that organized labor in this State was
swift in its condemnation of the devil-
ishness and fiendishness demonstated
in blowing up the Time building.

The Greensboro Telegram, referring
to the action taken by the State Fed-
eration of Labor at Asheville, recorded
the truth in expressing this sentiment:
"That organized labor as such would
favor fighting the open shop by the
use of dynamite is unthinkable. An-
archists, not the labor people, are the
ones who believe in throwing bombs
and infernal machines." Right mind-
ed men will agree to that sentiment.
Labor organizations may or may not
always be right in their contentions,
but in nine cases out of ten their
cause is just and appeals to the sym-
pathy of the majority of people in this
country. Oftentimes it is quite possi-
ble that they may be over-zealous or
unreasonable, but that labor—the pro-
ducers of wealth, the creators of pros-
perity—adopts as its method the use
of dynamite, or relies on murder and
lawlessness, is beyond all reason.

GEORGE BUTLER UP AGAINST IT.

If we were going to hunt up trouble
we would challenge Dr. John M. Fal-
son for a joint debate. Certainly we
should not care to "argue" with a man
who is "a rapid, aggressive talker,"
such as the Raleigh News and Obser-
ver considers the Democratic nominee
in the Third Congressional District to
be. The doctor is not only a rapid,
aggressive talker, but he is fearless,
incisive and convincing. His spiel is
loaded and on the stump we would
as soon have a mix-up with a swivel-
gun. He speaks with intense earnest-
ness and his argument is delivered
from a source of deep conviction.
Therefore, we appreciate what the
Hon. George Butler, the Republican
nominee, is up against while he is
trying to fan the flies of Dr. Falsion
in a political argument during their
joint discussion now going on in the
Third District.

There is no wonder that Dr. Falsion
is making such a canvass that the
Democrats of the Third are "greatly
enthused by the discussion," for they
have a candidate who is clean, keen
and invulnerable—the personification
of honesty, integrity and loyalty to
North Carolina, with a proud history
back of her and a grand destiny ahead
of her to be guided by the sons who
are devoted to their State. When Fal-
sion goes to Congress, and that is
where he is going to land, he will
warm a seat that has never been sit-
ted by any truer Carolinian.

Teddy could make it more effective
by cutting out his "version" and sub-
stitute therefore printed slips contain-
ing the genuine Ten Commandments.

A New Yorker declares that "a third
party is needed." There is no doubt
about that, and it should be composed
entirely of Tom Watson and Marion
Butler, who could insure against each
other to the delation of everybody
who enjoys a mix-up of malcontents
and perpetual disturbers.

Newspaper reports from the up
country indicate that Marion Butler's
speeches are the venomous products of
a man who is as mad as a wet hornet.
Nobody can blame him, for Democrats
spurn him and Republicans distrust
and knock him. He has a right to be
mad at himself for the reputation he
has acquired by a despicable political
course which Democrats detest and
which Republicans can't stomach.
Mary Ann ought to "take his clothes
and go" where people don't know him.

The party which does not make its
platform so absolutely plain and un-
equivocal that every voter can under-
stand it and what it actually stands
for, is not worthy of a reasonable
man's support. The party which is
guilty of double-dealing cannot be
trusted. It makes no difference which
party it is, but it is sufficient to say
that in North Carolina the Republican
party has been caught at it with that
"local self-government" plank on its
person.

THE SLAVERY OF TAXATION.

Who gets the benefit of the protec-
tive tariff which taxes the masses on
an average of nearly 45 per cent. on
practically everything they purchase,
some of the Aldrich schedules call-
ing for a tax as high as 150 per cent?
Why, those who are authorized by the
tariff law to fix the prices for nearly
everything we eat and wear, thus
placing the people at the mercy of
trusts and combines, get the benefit.
They subscribe enormous amounts of
money to keep in power the party
which levies that tariff so they can
exploit the people.

Is it possible that the majority of
the people will vote to continue the
Republican party in power so it can
perpetuate the infamous system
which burdens the average man and
moderate earner for the benefit of
the classes which keep the masses
working for them? There is more
than one kind of slavery, but the sys-
tem which puts a tax on what labor
industry and enterprise produces, and
which puts a tax on consumers, aff
for the benefit of one class of the
people, is a system of slavery that
seems to be voluntarily imposed by
voters who are supposed to be intelli-
gent. If the voters could not help
themselves it would be quite a differ-
ent thing, but they can go to the polls
and obtain freedom for themselves
by casting their ballots for Democratic
representatives in Congress.

It is true that some of the multi-mil-
lionaire beneficiaries have secured
seats in the Senate and House by pur-
chase, bribery and corruption, but there
ought to be enough of the spirit of
independence and civic intelligence
left in the people to enable them to
elect enough Congressmen to outvote
the special interests which dominate
Congress under Republicanism. If
the people actually intend and desire
to pay any kind of taxes for the ben-
efit of the favorite interests they
should at least send their own repre-
sentatives to Congress so they can
pass their own tariff law. Certainly
they should not be content to leave
it to such multi-millionaire repre-
sentatives as Senator Aldrich and others
who represent plutocracy and not the
people.

We often wonder if a voter has a
correct idea of his liberty when he
goes to the polls and votes for a party
the legislation of which is so plainly
framed in opposition to his interests.
If you do vote that way or are contem-
plating doing so, it is time for you to
call a halt on yourself.

A contemporary remarks: "Give the
young men a chance." No use to give
them any. They take chances all the
time.

The election in Georgia Wednesday
was sufficient intimation to Tom Wat-
son that as a disturbing factor his
power has petered.

CURRENT COMMENT.

Prohibition Republicans and anti-
prohibition Republicans are still as
far apart as the poles on the construc-
tion of that local self-government
plank.—Greensboro Telegram.

Some day the worm will turn, and
the employe will advertise for a sober,
honest, industrious employer who has
the interest of his employe at heart.—
Atlanta Journal.

It is not a question whether probi-
tion prohibits—but a question why
so many drunken brawls and murders
in prohibition communities—in com-
munities where it is claimed no likker
is sold. Murder is more rampant in
North Carolina than ever before ac-
cording to testimony of Superior court
judges—and surely, they ought to
know.—Everything.

The Goldsboro Argus pays warm tri-
bute to the late Major John H. Hill,
whose death at the age of seventy-
six brought sorrow to all Goldsboro.
He had been postmaster under Cleve-
land and was for a long time mayor.
He was a brave soldier, in command
at one time at Fort Anderson, and
for skill and courage on the retreat
from Wilmington was promoted to
major. He was a gentleman, a good
citizen, a brave Confederate soldier
and a Christian citizen. The passing
of men of his high type leaves the
world poorer, but their example is a
blessing to the generations that come
after them.—Raleigh News and Obser-
ver.

Major Stedman drove home some
homey truths at Winston-Salem Mon-
day night. Governor Kitchin told the
people of Graham what might be ex-
pected should Butler again obtain con-
trol of the State; Congressman Page
keeps up a cannonading against But-
lerism in his joint debates with J. J.
Parker and keeps the latter busy try-
ing to explain how good a man Marion
Butler really is. Mr. Falsion has Bro-
ther George going to the bad and Con-
gressman Godwin will, we believe,
have Mr. Meares on the books in a
short time. Butler's still hunt cam-
paign has been smoked out—the lead-
ers of the Republican party are the
defensive everywhere, they cannot
talk except to praise Butler, that
seems to be one of the things they
must do no matter how distasteful it
may be. The people are aroused to
Butlerism; they know what to expect
should Butler's ticket win; they have
been awakened as never before and
we believe, snow Butler and
Butler's ticket under at the November

election. There are but five more
weeks of active campaigning ahead.
The Democrats should not permit
themselves to lag; they should be even
more active in the effort to get out
the full Democratic vote than they
have been in the past and there
should no stone be left unturned to
see that every Democrat does vote.
The registration books will soon open.
See to it that your name as well as
that of every Democrat you know is
placed thereon. The last half of the
battle has begun; see to it that it be
kept up vigorously to the end. We
must have a great majority this year;
it is necessary for the downing of
Butlerism—that greatest of all men-
aces to the peace and prosperity of
the Old North State.—Durham Sun.

NATIONAL RIVERS AND HARBORS.

Convention to Meet Again in Wash-
ington Early in December.

Washington, D. C., Oct. 6.—The
Chamber of Commerce of this city is
greatly elated over having secured, af-
ter keen competition with Chicago and
Toledo, the 7th annual convention of
the National Rivers and Harbors Con-
gress which will meet at the National
Capital December 7th, 8th and 9th.

This great organization, now num-
bering thousands of contributing mem-
bers, is made up not only of repre-
sentatives from every water-way asso-
ciation in the United States, but from
hundreds of boards of trade and
Chambers of Commerce, and from the
ranks of business and professional men,
who recognize the necessity for a broad
and comprehensive policy on the part
of the Federal government in its treat-
ment of the inland waters of the coun-
try.

While Congress has gone on record,
in so far as the action of the commit-
tees of the two Houses are concerned,
in declaring in favor of an annual river
and harbor bill, there is much yet to
be done before that policy is written
into the statute books.

A governmental policy must be
adopted that will insure speedy com-
pletion of meritorious projects now
under way, and which, through the
"piecemeal" appropriations of other
days, have made their completion far
remote.

President Taft, who has seen the
Ohio river improvements extend over
a period of many years, having been
born within sight of its banks, has
sounded the keynote for a comprehen-
sive policy, the slogan of the National
Rivers and Harbors Congress, re-
iterated his position on the subject of in-
land waterway improvements at Cin-
cinnati recently, insisting that only
those projects which have the favor-
able recommendation of the Board of
Engineers of the Army should receive
governmental aid and that aid should
be of sufficient amount each year to
complete the project within the ear-
liest possible time consistent with
good business methods.

Out of the persistent agitation for
a "policy and not a project" which
the National Rivers and Harbors Con-
gress has been urging for a decade,
has come a Nation-wide sentiment
that the "pork barrel" must go as it
relates to water-way improvements,
and that Congress should put the river
and harbor bill above criticism by
appropriating only for those projects
that are worthy of improvement and
with tonnage-bearing capacity when
improved that will materially assist
in relieving disastrous freight con-
gestions.

No speech ever made by a Congress-
man ever better illustrated the absurd-
ity of the contentions for small pro-
jects, while greater and more deserv-
ing water-way improvements appeal
to Congress, nobody more clearly
ever in the years gone by pointed to
the present wise platform of the Na-
tional Rivers and Harbors Congress
for a broad and comprehensive policy
and not the mere project, than did
Amos J. Cummings, now called to
his fathers, in a speech he made in
the early nineties and which a great
hit in the House. In his speech, good
natured as it was, Mr. Cummings
contrasted the big project with the lit-
tle project. "I would gladly vote
\$1,500,000 for the harbor of Galveston,
if needed but to secure this appropria-
tion I am not willing to vote thou-
sands for the improvement of Powon
River and Mingo Creek," said the
New Yorker. And for an hour the
House was convulsed with laughter
over the sharp contrasts deftly work-
ed out by this adapt in the use of vig-
orous English.

THE CENSUS STATISTICS.

THE DOCTOR'S QUESTION.

Much Sickness Due to Bowel Disor-
ders.

A doctor's first question when con-
sulted by a patient is, "Are your bowels
regular?" He knows that 98 per
cent of illness is attended with in-
active bowels and torpid liver, and that
this condition must be removed gently
and thoroughly before health can be
restored.

Regular Orderlies are a positive, pleas-
ant and safe remedy for constipation
and bowel disorders in general.
We are so certain of their curative
value that we promise to return the
purchaser's money in every case when
they fail to produce entire satisfac-
tion.

Regular Orderlies are eaten like
candy, they act quietly, and have a
soothing, strengthening, healing in-
fluence on the entire intestinal tract.
They do not purge, grip, cause nau-
sea, flatulence, excessive looseness,
diarrhoea or other annoying effects.
They are especially good for children,
weak persons or old folks. Two sizes,
25c and 10c. Sold only at our store—

EQUAL CHANCE FOR ALL OPPORTUNITY FOR EVERYONE

Still Two Whole Days Left in
Which to Take Advantage of
Special Club Offer.

SOME OF THE CANDIDATES

All Are Working With a Will and
Their Friends Are With Them.
Votes May be Held in Re-
serve—Trip to Cuba.

An equal chance for all. An opportunity for everybody. The special offer which gives 35,000 extra votes for \$30 in new subscriptions is now on in earnest, and reports from contestants all over the State indicate that all of the contestants are striving for more than one club, and why shouldn't they? They are in the contest to win, and they are putting forth, or should be

MISS GAYNELLE NIXON,
Wilmington, N. C.

putting forth every effort to make their reserve large enough to insure them a winner at the close of the contest. There are still two whole days left of the special offer, which closes Saturday night, October 8th, at 10 o'clock.

Fair Proposition.

In order to make it fair for the young ladies living outside of the city, the contest manager has decided to allow them to turn their subscriptions into their postoffice any time Monday morning, October 10th. This is done in order to allow them to work all day Saturday, the same as the city contestants are. In running this contest, the

manager has endeavored to assist every young lady who has shown a tendency to become a prize winner, and if he has neglected one in any way, shape or form, they would confer a

of a contestant, and desire any literature, letterheads, or anything to assist your candidacy in the way of receipt books, information, or anything

favor upon him by calling his attention to the dereliction.

What to Do.

If you are a contestant or a friend pertaining to the contest, you will con-

fer a favor upon the management of the contest by writing the manager at once and stating what you wish to have done.

Casting Optional.

Of course, it is optional on the part of the contestants whether she casts the votes on Nov. 1st, or holds them in reserve, the contest department does not advise any young lady to put in all of her reserve, for if everyone would cast their full number of votes, anybody else wishing to take out some

five-year subscriptions themselves could easily beat those who had worked.

Beneficial to Candidate.

Therefore, if the contest department

STORY OF DIXONS' NEW PLAY

Remarkable Plot and Remarkable Company Promised in This New Production by Author of "The Clansman."

"It takes but a drop of black blood to make a negro!"

On this statement hinges the plot of Thomas Dixon's new play, "The Sins of the Fathers," which will be seen at the Academy next Saturday matinee and night. Helen Winslow is of lily-and-rose complexion, straight haired and hazel-eyed; she is, moreover, finely educated, and endowed with abundant graces of person and intellect. All this counts for nothing in face of the suspicion, backed by considerable evidence, that the young girl is the daughter of an octoroon.

While the astonishing rumor takes shape, Helen is a guest in Major Daniel Norton's home and beloved by the Major's son Harry. The news of the supposed taint in her blood stuns her like a blow. It enrages her fiancé. His own eyes afford him absolute proof that the young beauty is flawlessly white. He defies the wishes of his father, and prepares to marry Helen.

There ensues a struggle between parent and son which for tragic power is said to surpass the most thrilling scenes devised by Mr. Dixon in his previous play, "The Clansman." Accessory figures in the struggle are Cleo, the housekeeper, a yellow woman, who exerts a mysterious power over the fortunes of the family; Andy, a "gentleman in brown," the Major's butler and body servant; and Minerva, a great, jovial, coal-black negress who is as true and loyal as she is inky of hue.

The scenes of "The Sins of the Fathers" are laid in a Southern city, the capital of the State. The action takes place during a political campaign for the disfranchisement of the negro. Major Norton is the leader of the white forces. He comes home from his well-earned victory and himself defeated within his own household, for the yellow scepter is triumphant there. Death appears to be the only solution of the awful, baffling home problem.

It requires a master playwright to handle such complications. Those who have seen "The Sins of the Fathers" state that Mr. Dixon is fully equal to the task. Out of the pathos and despair he brings sunlight and peace. Tense and gripping in its human interest, "The Sins of the Fathers" is human too, in depicting the comedy as well as the tragedy of the South. Andy and Minerva form delightful additions to his gallery of "darker" comic. Their quaint antics and sayings will be mimicked and repeated everywhere.

With such players as Warren Conlan, Ethel Wright, Robert Barton, Lydia Kott in the serious characters, and Mrs. Charles C. Craig and Arthur J. Pickens having the principal "darker" roles, local theatre-goers can look forward to an exceptional dramatic treat. The company has been selected regardless of expense and with the sole aim of putting Southern characters in the most capable, artistic hands. Manager George H. Brennan, famed for the lavish style in which he produced "The Clansman" and others of Thomas Dixon's plays, has provided a beautiful scenic production. Altogether "The Sins of the Fathers" will constitute the principal event of a brilliant dramatic season.

DAVIDSON NEWS NOTES.

Dr. Reavis Makes Visit—Dr. Shearer in Charlotte.

Davidson, Oct. 5.—Rev. Dr. J. O. Reavis has been a visitor from Charlotte. He made a brief address to the Y. M. C. in Shearer Hall in the early evening. In spite of the fact that Mr. Hotchkiss had just spoken the day before on Africa, Dr. Reavis did not deliver the address that he has prepared since his trip to the Dark Continent, but he has promised to return later in the year and speak more at length. The special object in view last evening was the getting of subscriptions from the students to insure again the salary of Rev. Robert Colt, whose support the Davidson student body assume last year. No trouble is anticipated in securing the needed amount.

Today at noon the football team left for Virginia; the game tomorrow at Blacksburg is with the V. P. I. There were seventeen men in the block, this including Manager Barron, Coach Simmons and faculty representative, Dr. John W. McConnell.

Posters were distributed yesterday announcing the appearance here on October 10th, of the Hinshaw Grand Opera Company, high in price to the management and said to be equally high in the excellence of the concert given.

Miss Margaret Vance, now of Nashville, Tenn., is the guest of Mrs. W. J. Martin.

Mr. C. H. Richmond, of Danville, Va., was here yesterday, spending the day with relatives at the home of Dr. E. H. Harding.

Rev. Dr. J. P. Shearer is again in the Charlotte Sanatorium, where it is hoped he will soon recover his strength, after the rather extended sickness that he has had since the opening of the term. His physicians felt that he could get more careful nursing and closer attention. If he would spend some days in Charlotte.

Portugal in Throes of Revolution; King Manuel Has Already Fled

Lisbon, Portugal, Oct. 6.—The revolution which has broken out in Portugal, which has been brewing ever since Manuel ascended the throne, is undermined with anarchism. Manuel has never for an instant been permitted to forget the terrible tragedy of Feb. 1, 1908, when his father, King Carlos and his elder brother were assassinated and he himself nearly suffered the same fate. Plot after plot has been unearthed that had his death for its purpose. Almost nightly arrests of armed men sneaking around the Necessidades palace have been made. Even the Vatican has been able to warn Manuel of plots against his life and as recently as last May gave information which showed that the bomb that killed the anarchist Jascocelli in Madrid had been undoubtedly intended for the youthful sovereign of Portugal. Side by side with the anarchists is the, if possible, almost graver trouble of the secret revolutionary societies, which seek not so much the life of the king only, but the overthrow of the State. Nearly all these societies are banded together, and they flourish not merely in the cities, but in the countryside and extend also to the armed forces. These societies have for their object the establishment of a republican form of government, and many of them have in their membership men of note, influence and high respectability, who have no share in thoughts of assassination. But others have their bomb factories. Several of them have been found. Manuel has been king for two years and seven months, and it is doubtful if he has known a single moment of peace even when he has been away from his own country searching for a sweetheart to be his queen. In England his look of terror told that he did not feel safe even there. In Paris it was well known that he was in grave danger, for the headquarters of the anarchists, the most deadly enemies to his life, are maintained there. Manuel had just stepped into the royal carriage on that fatal morning of Feb. 1, with his father, mother and elder brother. The royal entourage was aroused, and there seemed to be all the precaution to insure safety that is usually taken with royalty. But as Manuel was laughing for perhaps the last time in his life, one from a group of anarchists skulking near sprang on the back of the carriage, and in a moment King Carlos, the beloved, rolled to the floor of the vehicle dead, the crown prince fell dead across his father's body and Manuel himself, shielded by the brave and loving mother, Queen Amelie, was wounded in the face and arm.

WHITEVILLE NEWS NOTES.

Mr. Greer May Leave—Interrupted Romance—Farmers' Notice.

(Special Star Correspondence.)
Whiteville, N. C., Oct. 6.—It is reported that Mr. Jackson Greer, of the law firm of Lyon & Greer, contemplates moving West this fall, on account of his health. Mr. Greer is an able member of our bar, has represented Columbus county in the Legislature, and has a host of friends who hope that he will yet abandon the idea of leaving us. He has valuable real estate in town, county and section, and as he will hold on to this if he decides to leave it is trusted that he will soon have his health restored and return.

A negro preacher took a girl to Nichols, S. C., from near Fireway, in this county, and married her. They came back and were stopping with a worthy old colored woman. But the girl's father, backed by a crowd, interrupted the honeymoon by appearing on the scene. They took the girl, as also the old preacher, carried the pair across the State line, securely tied, and wore his back out with switches. The father then carried the bride back home and put her in the field picking cotton.

Our business men say they never knew trade to open so briskly thus early in the season. Farmers have plenty of spare cash from their straw-berry, tobacco and grapes, without touching their cotton. A prominent Farmers' Union man was seen by the Star representative yesterday, and he stated that the union members had resolved to hold their cotton, and not sell at present prices. They are also working on outsiders to get them to hold. They are counting on getting 20 cents for their crop before Spring. Members who have debts to meet will borrow on their cotton.

There will be a big Farmers' Union rally at Chadbourn this month, and a great time is expected. Mr. Charles Barrott, National President of the Union, is expected to be present and deliver an address. Chadbourn is a great meeting place for gatherings and conventions of all kinds.

THOMAS DIXON WILL SPEAK

Feature of State Convention of United Daughters of Confederacy at Rocky Mount Next Week—Large Delegation is Expected.

(Special Star Correspondence.)

Rocky Mount, N. C., Oct. 6.—Mr. Thomas Dixon, the author and playwright, will be a speaker on the pro-

gramme of the Daughters of the Confederacy at the meeting of the State Convention in this city next Wednesday morning. A request to speak before the Daughters of the State was extended recently when it was learned that Mr. Dixon was in this section looking after the interests of his latest production "The Sins of the Fathers" and as this show is booked for the Masonic opera house on Tuesday next, both matinee and night, the committee on arrangements thought it an excellent opportunity of having Mr. Dixon included in the programme. His wire of acceptance of the invita-

tion was received by the Secretary of the Bethel Heroes Chapter of the Daughters of the Confederacy, the local chapter, to be hostess of the State convention next week. Over 150 delegates are being prepared for and the committees from the local chapter are leaving no stone unturned for the success of the meeting.

We are authorized to announce that Mr. Dixon will be in this city with the show "The Sins of the Fathers" on next Tuesday at both the matinee and night performance. A special matinee having been consented to because of the presence in the city of this State organization which is numbered as one of the leading woman's organizations in the South. Mr. Dixon is one of the most famous men right now in the United States, and from a theatrical standpoint there is none any more in the limelight than he.

DOG IN COURT.

Pleaded His Own Case and Was Found Not Guilty.

Spokane, Wash., Oct. 7.—"Spot," a big brown bird-dog, owned by Robert J. Oodas, accused of driving "Beth," a cow, belonging to Byron A. Wilson, into a barbed wire fence and causing her death, was acquitted by a jury in the Spokane county superior court, where Judge William A. Hunkle presided. The jurors were cut eight minutes. The dog was a witness in its own behalf over the objections of John M. Gleeson, counsel for Wilson, and won instant favor by its behavior. When called, "Spot" advanced to the jury box and extended its paws to each of the 12 jurors in turn and barked playfully until taken out of the court room by the bailiff. A dozen men and women also gave testimony for and against the dog, but as there were no eye-witnesses and the evidence was purely circumstantial, as Judge Hunkle said in his charge, the jury gave "Spot" the benefit of the doubt and returned a verdict of "not guilty." Wilson, who sought \$75 damages for the killing of his cow, may appeal the case to a higher court on technical grounds.

RECOVERY IN COTTON MARKET

Settlement of Lancashire Labor Troubles and Crop Damage From Rains Inspired Market—Five Points Advance.

New York, Oct. 6.—The cotton market recovered all of yesterday's lost ground during today's trading as a result of covering by recent sellers and fresh buying for long account inspired by apprehension of crop damage from heavy rains in the central belt and the settlement of the Lancashire labor troubles. The close was a little off from the best, but steady with prices showing a gain of 15 to 18 points for the day.

The market opened firm at an advance of eight points on October and of 15 to 21 points on later months in response to higher cables than expected and reports of very heavy rains in the central and Gulf States. At first buying seemed to come chiefly from recent sellers for a reaction, and when it was found that there was no particular broadening of the demand from outside sources the market eased off several points from the top under renewed realizing, but this setback was followed by another sharp advance during the middle of the day when private cables were received announcing the settlement of the labor disputes and stating that work would be resumed in the Lancashire mills on Monday. This second upturn carried the active months up to 25 points above the closing figures of last night of back to practically the high record of last Tuesday and around 14.34 for January offerings became heavier as a result which prices reacted 7 or 8 points from the best. Numerous reports from the South claiming an increase in cotton demand imparted a very steady tone to the situation, however, and at least part of the buying here appeared to come from trade interests. Official weather reports confirmed the private advices of general and in some instances heavy precipitation in the central belt with one point in the Memphis district reporting over eight inches, but generally speaking this was regarded as less likely to shorten the crop than to lower the grade and cause some delay in picking.

Low temperatures were reported in the western belt last night, but the official forecast was for warmer weather tomorrow. Southern spot markets as officially reported early were unchanged to 1-8 higher.

Receipts at the ports today 57,789 bales against 58,322 last week and 147 last year for the week. The bales against 390,528 last week and 419,627 last year. Today's receipts at New Orleans 4,969 bales against 6,908 last year.

A LISTLESS DAY FOR STOCKS

Sharp Reaction of Wednesday Resulted in Discouragement to the Movement for a Rise—Money Market is Easier.

New York, Oct. 6.—There was a relapse into listlessness in the tone of speculation in stocks today and operations were hesitating and without marked initiative. The sharp reaction of the day before resulted in considerable discouragement to the movement for a rise. At the same time, with the recession in prices there was a falling off in the offerings which weighed on the market yesterday.

This was taken to mean that no aggressive movement to depress prices or to make the stock at concessions was in contemplation. The consequence was a fresh hardening of prices with the closing at net gains.

The day's events offered slight incentive to market action on either side. The Portuguese revolution continued to excite only languid interest. The easing discount rate, on the contrary, was of some effect in relaxing the foreign exchange market in New York. Other influence in the same direction was the settlement of the Manchester cotton spinners' dispute and the impetus thus given to the foreign demand for cotton.

The immediate condition in the local money market is somewhat easier with the passing away of the effects of the October money payments.

The interior demands for cash being re-asserted itself. There was renewed attention paid to stocks known as specialties. The sudden advances here and there in such stocks was believed to be caused by market pools formed for the purpose among small bodies of operators. The recurrence of these movements overcame to some extent the heaviness shown at one time during the day.

Bonds were steady. Total sales par value \$2,287,000. United States bonds were unchanged on call. Total sales for the day were \$35,300 shares.

EQUAL CHANCE FOR ALL OPPORTUNITY FOREVERY ONE

(Continued From Page Seven.)

one knows how many votes the other one has, thereby eliminating the gambling proposition, which would ordinarily have the tendency to make someone try to buy.

Large Circulation Wanted.

What the Star wishes to accomplish is to secure a large subscription list throughout the city and State, and this being done in this manner, giving valuable premiums in lieu of a contestant's spending a few hours each day in gathering subscriptions for which she receives votes.

The Prizes.

There is but little that can be said about the \$500, because no one is aware of what the different contestants would want to do with that sum. However, as far as the \$500 is concerned, if there is anyone who does not thoroughly understand the use of the same, the contest manager will gladly enlighten them.

Trips to Cuba.

In regard to the trips to Cuba, which is the third grand prize, there are many points of interest to visit in and about Havana that the question arises what to see first. Possibly the Morro Castle and Cabanas fortifications across the bay come first, as they are usually visited first by tourists. Morro Castle completed in 1597 is an irregular fortification from 100 to 120 feet above the sea, surrounded by moats 70 feet deep, of which are hewn out of solid rock, and stands on a bold headland jutting out into the gulf. It is crowned by a lighthouse, the flash of light from which is visible 18 miles at sea. The ascent to the entrance is by an inclined road, which is shaded by trees above which tower the moss-grown walls. The moat is crossed by a drawbridge to the saltpetre, and the wonders of the place are before one—prison-like rooms, dungeons and all the rest. From the crest of the Morro walls a most beautiful view can be had of the city and its suburbs, and far away behind it the dim blue peaks of mountains loom. Gazing out to sea, one is enchanted by the deep blue of the Gulf Stream, white sails in the distance, and perchance the trail of smoke from some steamer hull down, beyond the horizon, which serve to make a beautiful marine picture worth the trip itself.

The portraits of five popular little ladies appear in these columns today, representing that many workers for prizes in the Star's popular voting contest.

Miss Pearl Warters represents the progressive city of Newbern, and her name will be found in the fourth district with a number of votes to her credit, showing that she is a most enthusiastic worker.

Miss Ethel Sutton, of Dunn, N. C., has entered the contest with the determination to be a winner, and from

the way she has started out, shows that she means to exert every effort to win.

Miss Gaynelle Nixon, Miss Willie Ferguson and Miss Hortense Strickland, all represent Wilmington, and are working early and late to make the rapid strides which their friends will be pleased to note at each announcement of the standing of the different contestants.

Young Woman's Contest.

Contest No. 1 is for young women, married or single, and has been divided into six districts so that all of the contestants will not be working against each other.

In this contest the Star is offering four Grand Prizes, and 24 district prizes, consisting of \$500.00 in cash, a handsome upright piano, two trips to Cuba, with all expenses, a Shetland Pony, Harness and Trap, six Hand-some Diamond Rings, Six Turkish Rockers, Six Gold Watches and Six \$25.00 Bank Accounts.

The young woman, city or country, who has the largest number of votes to her credit at the close of the contest will be awarded the \$500.00 in cash. The second highest will be awarded the Piano. Third highest will receive the Trips to Cuba, selecting her own companion to accompany her, and the fourth highest will receive a Shetland Pony and complete outfit.

Should the second highest contestant, however, prefer the trips or the Pony to her Piano, she would be allowed the privilege of choosing her prize, as the largest number of votes go to each of the six districts into which this contest has been divided.

Twenty-four District Prizes. After the four Grand Prizes have been awarded there will be 24 district prizes divided evenly among the six districts making four prizes sure to go to each of the six districts into which this contest has been divided.

A coupon good for five votes appears daily in the Morning Star, and of these a young woman may gather as many as she possibly can daily, and have her friends gather them for her, and if she sends them into the office before the date at the bottom has expired, they will each one count for five votes to her credit.

The nomination blanks which also appear daily, are to be used for nominating only, and only one will be credited to each contestant. These nominating blanks count for 2,000 votes, and enable the young woman to make a good start when she first enters the contest.

How Votes Are Secured.

Contestants and their friends may gather as many of the ten vote daily ballots as they can possibly secure, each one placing the candidate's names just that much nearer the Grand Prizes.

Another way to secure votes is to gather subscriptions to the Morning Star. Votes will be allowed on new subscriptions, on arrears, and also on renewal of subscriptions.

Year's Subscription 3,000 Votes.

A year's subscription to the Morning Star is \$6.00 and on that subscrip-

tion 3,000 votes will be given on a new subscriber. The schedule on four months and six months subscriptions is also fully outlined in today's announcement. A full list of premiums, the schedule of votes, the distribution of the prizes, in fact every detail pertaining to the contest is fully explained in the full page announcement today.

Now is the time to enter the contest, for an early start is half the battle. Send in your name or that of your friend at once to the Contest Manager of the Morning Star, and get the contest fully explained, and the winning will be easy.

Who May Enter Contest.

Any young woman, married or single, residing in Wilmington or the States of North or South Carolina, is eligible to compete in this contest. A young woman does not have to be a subscriber to the paper in order to enter. All that is necessary is to send in the name and address, and assurance that the person entering is in good standing.

No relative or anyone connected with the Star office will be allowed as a contestant.

Contest No. 2—For Boys.

The Star has also put on a contest affording the bustling boys of its territory a chance to put in their spare time during the next few weeks before school opens to win a handsome prize for their efforts.

A coupon appears daily for the boys' contest, and each one of the votes counts for five, and the young man may secure as many of these as he possibly can get together. His friends may gather them and send them in for him, just so they are sent in before the date at the bottom has expired. They will count to the young man's credit for five votes each.

This contest is entirely separate from the contest for young women which has just been inaugurated, but the same schedule of votes will be used for both contests. That is 3,000 votes on a new yearly subscription, 1,000 votes on a new six months subscription, and 400 votes on a new four months subscription.

There will be three prizes for the young men in the city of Wilmington, and three prizes for young men outside of the city of Wilmington, so in that manner this contest has been divided into two districts. The first prize for each district for the young men will be \$50.00 each in cash. The second prize for each of the two districts will be handsome gold watches, and the third prizes for each of the two districts will be smaller watches.

A young man may send in one of the nomination blanks, thereby starting his name in the paper with 2,000 votes, and he may gather as many of the five vote coupons as he can possibly secure. Besides that he may secure subscriptions to the Morning Star, and secure large number of votes on each one brought in.

Contest in Infancy.

The count today shows the contestants in every district have made substantial gains but the contest has really just begun and a contestant should

In Girlhood

A Tonic Medicine

"When I was a young girl," writes Mrs. Guy Simmons of Columbus, O., "I contracted a bad cold when I was just entering womanhood. From that time on I grew worse and suffered untold pain. Soon after my marriage, three years ago, my husband bought me a bottle of Cardui. I got better at once and now, after taking three bottles, I am entirely well. We have recommended Cardui to our friends and will do so as long as we live. It is the best medicine in the world for relieving woman's ills."

not feel discouraged because one has a few votes more than he or she. With very little effort the contestant farthest down the list could place his or her name at the top if they would just realize that they have an equal chance to win the \$500, or one of the many other prizes and that they might just as well be awarded the prize as to have it awarded to some one else who possibly did a few hours more work than they did. If any contestant desires further information or wants the contest explained in any manner it will be attended to as soon as the contest department is notified.

Capt. Bogardus Again Hits the Bull's Eye.

This world's famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says: "I suffered a long time with kidney and bladder trouble and used several well known kidney medicines, all of which gave me no relief until I started taking Foley Kidney Pills. Before I used Foley Kidney Pills I had severe backaches and pains in my kidneys and suppression and a cloudy voiding. On rising in the morning I would get dull headaches. Now I have taken three bottles of Foley Kidney Pills and feel 100 per cent. better. I am never bothered with my kidneys or bladder and again feel like my own self." Robert Bellamy.

SUPPORT HEALTH MEASURES.

An Appeal From Woman to Carolina Manhood.

(Weekly Bulletin.)
Last week the secretary of the State Board of Health received a letter in which the following facts were set forth: The writer was an orphan girl, and, judging from neatness, arrangement, and the general tone of the letter, she is a lady of refinement and culture. She is a daughter by birth and residence of North Carolina. A little over a year ago a relative with whom she was living fell a victim of consumption. The young lady, then forced to earn her own living, moved to another State. She is now, herself, in the early or curable stage of the disease, which he undoubtedly contracted while nursing her relative.

Why does she write? What does she want? Simply to live. She has not the dollar a day which it is necessary for her to pay in order to enter the State Sanatorium for the Treatment of Tuberculosis.

But why write the secretary of the State Board of Health for this vitally necessary help? Because that official is commanded to discharge the public health obligations of something like 200,000 able-bodied men. In this capacity, he is the personal representative of each one of them, and thus orphan girl's appeal is, therefore, to every North Carolina man. Then it is to you, able-bodied man, that this North Carolina woman comes for help. Woman appealing to man to save

her life! A man, too, who claims the inspiration of a noble parentage, a man who considers himself a pure-blooded patriot, ready to die, if necessary, for North Carolina or for North Carolina womanhood. All that is asked is a mere pittance in the form of a health appropriation. Five or ten cents from the average man would be enough. But oh, the horror of that word tax! Is it more horrible than the unnecessary death of a helpless woman?

So far, North Carolina manhood, speaking through their representatives, has seen fit to make so small a public health appropriation that our State, which is 14th in population, stands about 30th in her public health appropriation. At present we are spending only six mills per capita, which means a tax of only one-fourth of a cent on every \$100 worth of the State's property. Our appropriation to the State Sanatorium for the Treatment of Tuberculosis is so small that it is necessary for the few who enter to pay a dollar a day for treatment. The appeal of this woman is only one of many such appeals; she simply represents a class. It is hoped that the State press will bring this vital matter to the attention of those whom it concerns. It is really every man's business whose heart is warmed with a real sympathy for suffering, helpless humanity.

What will you have your State do? If it is your duty to help save these lives, tell your representative in the next Legislature to assist in making

adequate provision for the public health.

HONOR FEMALE HEROES.

Governor Approves Monuments to Women of the Confederacy.
State of North Carolina, Executive Department, Raleigh.

Dear Sir:—In reply to your letter of the 22nd, I beg to say that I shall be glad to co-operate with you in the movement to secure State monuments to the women of the Confederacy.

I think your plan to have a tag-selling Monument Day will be beneficial to the movement. I have often advocated monuments to the Confederate woman, not only in recognition of her loyalty and service during the war, but for her unflinching loyalty ever afterwards.

I have frequently said that a monument to the Confederate woman, among other things, should have an inscription stating that the dark days of reconstruction found no scalawags among the women of the South.

With best wishes,
Yours truly,
W. W. KITCHIN,
Governor.

Brief Mention, News of Societies, Meetings, Etc.

Mrs. H. M. Schwab, of Cincinnati, Ohio, is the guest of her daughter, Mrs. Abe Einstein, at No. 416 Princess street.

Mrs. W. L. DeRosier and daughter, Miss Anita DeRosier are in Fayetteville, where they will spend the winter with Mrs. W. L. Holt.

Friends of Capt. Horace A. Bagg will regret to know that he has been confined to his bed for the past two weeks, but hope that he will soon be able to be out again.

Miss Bessie Laurison, of Spartanburg, S. C., after spending several weeks with Mr. and Mrs. James Murrell at Phoenix, N. C., passed through the city yesterday en route to Vancouver, B. C.

Mrs. Alva Mincey, accompanied by her little son and daughter, Russell and Mable Washburn, left yesterday morning for Greensboro on a visit. On her return Mrs. Mincey will stop over in Lillington, N. C., and visit her mother, Mrs. C. S. Pipkin.

Mrs. Cuthbert Martin left this week for New York City, where she will spend several weeks on a visit, returning later via Washington, D. C., where she will also spend some time. On the visit North Mrs. Martin will be joined by Mrs. W. G. Pulliam and Mrs. T. E. Sprunt, who are visiting in New York.

Tonight will mark the opening of the dancing season, when Mr. Kneisel's orchestra will furnish music for the first big hop on the Masonic Temple ball room floor. A large crowd is expected to attend. The dances arranged for by Mr. Kneisel are strictly informal and given for "good time" purposes only. The floor has been put in splendid condition and is considered the finest in the State. Mr. Kneisel invites all to "come up and enjoy the first hop of the season."

A special meeting of the executive officers of Cape Fear Chapter, United Daughters of the Confederacy, and the delegates to the State convention to be held at Rocky Mount, is called to be held in the W. L. I. armory at 12 o'clock, today, and it is hoped that all will be present. The notice in yesterday's paper to the effect that a special meeting of the entire chapter would be held today was a mistake, as the meeting is intended only for the officers and the delegates to the State convention, as stated above.

SENT MESSAGE TO GEN. OTIS.

Expressions From Associated Press Directors About Times Loss.

New York, October 6.—The board of directors of the Associated Press, now in session here, has sent the following dispatch to General Harrison Gray Otis, of the Los Angeles Times:

"The Board of Directors, of The Associated Press, now in session here, extends to you an expression of its deepest sympathy in the dreadful loss of life incident to the recent attack on your property. We feel sure that your splendid energy and executive ability and a loyal and brave American community will enable you to meet and overcome the difficulties of the situation and in your work of restoration you have our best wishes and our cordial good wishes. We join in the universal popular condemnation of the horrible manner in which you have been made the victim of methods employed by the worst enemies of civilization, and we hope the perpetrators may be apprehended and punished."

The board also adopted resolutions of condolence and regret on the death of Harvey W. Scott, of Portland, Ore., late a member of the board.

NEGRESS SHOT, OFFICER HURT.

Near-Tragedy at Eighth and Swan Streets Wednesday Night.

It was reported at police headquarters early yesterday morning, that Pearl Gilliam, colored, who has been in court a number of times, was shot Wednesday night, about 10 o'clock, near Eighth and Swan streets, by a negro man, supposed to have been Son Darlington, colored, who is wanted on another charge of shooting, and that Mounted Officer D. W. Jacobs, who rushed to the scene as soon as he heard the pistol shot, was painfully injured by being pulled forward by the horse's neck. The negro whom he had arrested under suspicion of being the one who fired the shot, Mounted Officer Lane was with Officer Jacobs at the time. Mr. Jacobs believes that one of his ribs is fractured and will probably be confined to his home several days on account of the injury.

The negro succeeded in effecting a get-away. Pearl Gilliam was taken to the James Walker Memorial Hospital for attention. She received a bullet in her thigh. The wound is not thought to be serious. The woman refused to tell who did the shooting.

THE POST-SEASON GAMES.

Between National and American Leagues Arranged.

New York, Oct. 6.—The series of post season games to be played under the auspices of the National Commission between the National and American League teams, will start Thursday, October 13th, and games will be played daily until one team has won four contests. The schedule approved by the National Commission follows: Thursday, October 14, at American League Park. Saturday, October 15, at Polo Grounds. Monday, October 17, at American League Park. Tuesday, October 18, at Polo Grounds. Wednesday, October 19, at American League Park.

Should a seventh game be necessary the place and date will be decided by the toss of a coin.

The series will be played under the rules governing the games for the championship of the world, with the players participating in the receipts of the first four games.

William J. Klem, of the National League, and William Evans, of the American League, will be umpires.

IN POWER OF THE CHURCH

Christian People Can Put "Blind Tigers" Out of Existence in Wilmington, Declares Noted Temperance Lecturer.

In closing an earnest and strikingly able temperance lecture at Grace Methodist Church last night, Miss Lillian M. Phelps, representative of the National organization of the Woman's Christian Temperance Union, declared that it was in the power of the Christian people of Wilmington to enforce the prohibition law and close for ever every "blind tiger" in the community, and urged the people to get together and organize for this purpose.

She said, in effect, that the non-enforcement of the prohibition law in every community could be laid at the doors of the Christian people; that if they desired they could put out of business every place where whiskey and "near-beer" is sold and bring sentiment to that point where the tigers dare not re-open their places.

The lecture was given under the auspices of the local W. C. T. U. and there was a large attendance of both men and women, only a few of whom were members of the organization as was shown at the close when Miss Phelps asked all members of the W. C. T. U. to stand. Occupying seats on the rostrum were Rev. Thos. A. Smoot, pastor of the church; Rev. J. S. Crowley, pastor of Immanuel Presbyterian church, and Mr. C. C. Covington, one of the leading prohibitionists of the city.

Miss Phelps began her very able and effective address by calling attention to the fact that licensed saloons, after being tried for 300 years, had failed utterly to solve the whiskey problem, and that the women's crusade, inaugurated more recently, had come and gone and whiskey was still being sold, but the influence of that crusade is being felt today and great progress is being made throughout the world in abolishing the whiskey traffic. She said that she spent much of her life on the Canadian side of Niagara Falls and that the Canadian people had great respect for law; never a baseball game there on Sunday, but the whiskey traffic problem is the same there as it is in the United States.

She told most interestingly of the growth of the W. C. T. U., which is now the largest organization exclusively for women in the world, though not the largest temperance organization, and declared that the organization was having a great influence not only in this country but in many other countries in arousing public sentiment against the manufacture and sale of whiskey. She spoke briefly of the recent growth of the prohibition sentiment in foreign countries and declared that even England was progressing in this respect and very likely ere long 30,000 saloons would be closed in that country. In the recent election in Sweden the prohibitionists succeeded in electing several members of parliament and other officers and money had been given by the official body to the women to further the cause of temperance. She wondered when Congress would give the women of this country money to be used in furthering the cause they espoused, and answered her query by saying that never while Joe Cannon is Speaker of the House.

Prohibition, she declared, was the only solution of the question. The settlement of the question rests with every man, woman and child. It is for them to say whether or not whiskey shall be manufactured and sold, not whether it shall be drunk. She said that if the whiskey dealers could show where they help the poor, the schools, churches, elevate the community to a higher plane, etc., then society had not the right to step in and say that it shall not be sold, but on the other hand if it could be shown that rum is a blighting, blistering ulcer on society, as it can be, she said, then society has the right to step in and take a hand. Prohibition, she said, does prohibit. If there is as much whiskey sold under prohibition as when there are licensed saloons why do the whiskey people object to prohibition? she asked, and why have the brewers of the country given \$1,000,000 to fight all efforts toward prohibition? She declared that prohibition badly enforced was a thousand times better than the licensed saloon. They are telling you down here that there is as much whiskey sold now as when you had saloons. This is not so.

In conclusion she said that the Christian people could run rum out of Wilmington if they desired and urged them to organize to fight the evil.

A collection was taken for the State work being conducted by the organization and amounted to something like \$25, just twice as much as asked for. Then several new members were enrolled in the W. C. T. U. Mr. Smoot thanked Miss Phelps most heartily for her excellent address and stated that he felt sure that she voiced the sentiments of all who heard her discourse.

Miss Phelps leaves this morning for Fayetteville, where tonight she will deliver a lecture.

SHAKY BANKS MUST GO.

Comptroller Murray Forcing Them Out of Business.

Washington, October 6.—National banks which are shaky and give no promise of improvement are being steadily forced out of business.

During the twelve months ending on October 1st, 113 national banking institutions went into liquidation. Of that number four no longer desired to continue business, four failed and 105 went into dissolution, because they were practically forced to do so.

Lawrence O. Murray, Comptroller of the Currency, has declared he will force every weak bank out of the field when its directors refuse to put it on a firm basis.

STREET COMMISSION MEETS

Several Matters Considered at Special Session Yesterday Afternoon—Macomber's Ditch and Street Paving Discussed.

The Street Commission held an important special meeting at the City Hall yesterday afternoon, Capt. Louis Belden, the chairman, presiding and Messrs. W. E. Worth and George Heyer, members of the board; City Engineer C. R. Humphreys and Clerk J. F. Gause in attendance. It was manifest that the members of the commission are not only ready but anxious to begin the work of paving the streets of the city, and one member, Mr. Worth, went so far as to declare that unless something is done soon toward settling the sewerage question, so the commission can get to work on the streets, he would tender his resignation as a member of the body.

The meeting was called to order at 3:30 o'clock, by Captain Belden, who stated that there were several matters that needed to be disposed of before the next regular meeting, one week from today. The first matter was with reference to the bond of Mr. R. W. Curtis, president of the company, which was awarded the contract for the construction of the Sixth street bridge, and a communication was read from him in which he stated that he had made application for the bond and had also placed the order for the steel to be used in the bridge. He expressed the hope to have the bond ready within a few days. Upon motion the contractor was given 10 days to file the bond, and the engineer was instructed to secure the address of the concern putting up the steel work, so that it can be properly inspected.

A question that is giving the commission no little concern just now, is whether or not the Tidewater Power Company is required to keep level the surface between tracks and ground foot on each side, or the surface between the tracks and 18 inches on each side. The franchise granted the company requires that the company keep up the surface between its tracks and one foot on each side, while the bill creating the Commission requires that the company shall be responsible for 18 inches on each side of the tracks. The clerk read a letter from Mr. A. B. Skelding, general manager of the Tidewater Power Company, inclosing an opinion of Davis & Davis, who had made a report on the question for the company. In the opinion of the attorneys, the company is required only to keep up the space between the tracks and one foot on each side and stated that in many instances this had not been imposed upon the company. The question then arises whether the commission shall be governed by the franchise granted the company by the Board of Aldermen, or by the legislative enactment. The matter of seeking the advice of an attorney for the city was deferred until the next meeting.

At this juncture Captain Belden said that he felt reasonably sure that there would be something doing in the matter of settling the sewerage question within 60 days. The clerk read a letter from Col. Walker Taylor, in which the writer called attention to Macomber's ditch and suggested that right away the commission is prevented from doing work on the streets, pending some settlement of the sewerage question, would be a good time to give the ditch some attention. Colonel Taylor stated in his communication that he had no property interests in that section, and was writing purely in the interest of the health of the people of the community, the ditch having been pronounced dangerous and a menace to health by the physicians of the city. He called attention to the fact that the filling up of the ditch would greatly enhance the value of the property in that vicinity, and would increase the revenue of the city in taxes. The letter had already been replied to by Captain Belden, whose letter was to the effect that the ditch came under the head of sewers and therefore the commission had no authority to act. Mr. Worth stated, later on in the meeting, that the ditch is not properly a sewer, though it may have been used as such, and contended that it was in the power of the commission to close it up. He was satisfied that the proper owners are prepared to go ahead and bear their proportionate part of the expense. He suggested that the commission order a survey and secure an estimate of the cost to do the work, then call the property owners together and make them a proposition. City Engineer Humphreys stated that it would be an easy matter to prevent any sewer connections. The matter was discussed at some length and will be considered further at the next meeting.

The city engineer, was authorized to purchase 300 granite stones to be used in carrying out his plan of properly marking the property lines throughout the city, which is generally conceded to be badly needed. It will take some 500 stones to complete the work. There are about 100 on hand and it is hoped that 100 of the numbers now in use can be used. The meeting adjourned about 5 o'clock.

LOCAL DOTS.

—The steamer Duplin, Capt. Stokes, which has been receiving repairs at Skinner's shipyard, will resume her regular run between the city and Smith's Bridge today. It will be recalled that the steamer recently sunk while receiving lumber on the North-east river and was brought to the shipyard here about a week ago.

POTENTIALITY OF WHISKEY

Interesting Case Decided by Supreme Court—Run Down by Automobile—Seven Charters Issued—Parker Case Opinion.

(Special Star Correspondence.)

Raleigh, N. C., Oct. 6.—"Whiskey is very potential at times but it cannot be relied upon to produce such beneficent results as it claimed for it in this case" is the ruling laid down by Associate Justice Brown, in an opinion of the North Carolina Supreme Court just delivered in the case of Thomas J. Newsome vs. Western Union Telegraph Co., from Sampson county.

The jury in the trial below has allowed Newsome \$524.10 damages for failure, through error in telegraphing order of Newsome, to receive four gallons of corn whiskey from one Royal, at Benson, N. C., the whiskey being pledged to Newsome's raft hands making up a raft of timber and rosin to float to Wilmington during a certain February freshet. In transmission the telegram had the signature changed from Newsome to Sessions so that the order was not filled. The plaintiff claimed that in consequence the raft hands refused to go into the river and make up the raft so that he lost the benefit of that freshet, missed a profitable sale of his timber and rosin at Wilmington and had his credit seriously embarrassed through consequent inability to meet obligations in a bank there. The telegram for the whiskey read: "Send four gallons corn, rush, raft hands" and was signed "T. J. Newsome."

In ruling that there was error in the trial below and that the plaintiff should only recover nominal damages instead of the \$524.10 allowed by the jury, Judge Brown, for the Supreme Court declares: "The fact that the whiskey was not sent may have caused the hands to refuse to go into the water but it is a far cry between contracting thereat at Thomas and marketing the product at Wilmington. The whiskey may have arrived and still the raft remain unconstructed. The raft may have been constructed and loaded and still never reached Wilmington. It requires a stretch of the imagination to conceive that had the four gallons of whiskey reached Thomas, the raft would have been properly constructed, loaded and safely conducted over a heavy freshet to Wilmington and the merchandise duly and profitably marketed. Whiskey is very potential but it cannot be relied upon to produce such beneficent results as is claimed for it in this case. It is a singular fact that in the county where the four gallons of corn whiskey were expected to produce such results, its use was prohibited and its sale prohibited by law. It was contraband, outlawed and dealing in it was a crime."

C. B. Edwards, a prominent retired business man of Raleigh, was run down by an automobile at the corner of Fayetteville and Martin streets this morning, and, painfully, though it is thought, not seriously injured. He was standing close by the curb when the machine turned by him, the rear wheel catching him and pulling him under in such a way as to shake him up and bruise him painfully. However, he was able to drive home in a hack alone. The machine is owned and was being driven by D. F. Crinkley, a department store merchant here. It is one of the very earliest automobiles turned out in the infancy of the automobile industry and is typical of the old "ramshackle one-horse shay" variety, really the laughing stock of the town.

The Asheville Piano Co., capital \$50,000, by Chas. Nichols, W. J. Kincaid and others, received a charter today for the manufacture and sale of pianos. The Graham Milling Co., Alamance county, capital \$20,000, by C. P. Harden and others; the Whitaker's Oil Mills Co., Nash county, capital \$50,000, by W. T. Braswell and others, and the Grace Hospital Training School, Morganton, Marla P. Allen and others, incorporators, are also chartered.

The J. I. Case Threshing Machine Co., of Racine, Wis., filed with one Secretary of State today domestication papers for their principal office to be at Greensboro with O. C. Klingman in charge. Threshing machines, portable and traction engines, automobiles are the principal articles to be manufactured and sold.

The Supreme Court, in Lumber Co. vs. Parver and others, from New Hanover county, settles an important contested question in North Carolina law by declaring that the homestead is not an estate that can be sold and carry with it the exemption from levy for judgments but is a mere exemption right which is personal to the homestead and if the homestead is sold by the owner then the exemption ceases.

Freckle-Face

If the Summer Brought Out Unsightly Spots, You Can Remove Them Easily.

Do you know how easy it is to remove those ugly spots that no one will call you freckle-face?

Simply get an ounce of Othine—double strength, from J. Hicks Bunting Drug Co. and one night's treatment will show you how easy it is to rid yourself of freckles and get a beautiful complexion.

Now that the summer has brought its crop of freckles to most women, there is an unusual demand for Othine and in October the druggists sometimes find it difficult to get sufficient to supply all calls. Be sure to ask for the double strength Othine, as it is sold under guarantee of money back if it fails to remove the freckles.

No Impossible Cases

We do not recognize any case of drug slavery as beyond cure. The Treatment administered at this Sanitarium is a cure for the desire for the drug. At the same time we build up the system to enable it to do without the drug it has so long craved and practically lived on. With the desire gone and the system in condition to be satisfied with ordinary food of a normal man; the victim IS now a normal man and master of his appetites.

We guarantee the cure of any case of morphinism, and will take any patient subject to this guarantee. Physician and nurses in constant attendance.

FIRST OF LYCEUM COURSE.

Hinshaw Grand Opera Singers Made Hit With Large Audience.

Between 300 and 400 music lovers of Wilmington enjoyed a real musical treat last night, when the Hinshaw Grand Opera Singers opened the Boys' Brigade Lyceum Course with a thoroughly delightful concert in the armory, corner Second and Church streets. Every seat in the auditorium was taken and every number on the programme pleased. Each member of the company is a finished artist, and the singers fully met the expectations of those who had read the very complimentary press notices. The members of the company are: Miss Jane Abercrombie, soprano; Miss Frederica G. Downing, contralto; Mr. Luigi Chila, tenor; Mr. Robert Yale Smith, pianist. While there was not a dull number on the programme and all called for enthusiastic applause, the two numbers that appeared to make the hit of the evening were: Trio—"Holy Angels," (Faust)—Gounod, Miss Abercrombie, Mr. Chila and Mr. Smith; Cavatina—"Largo al Factotum" (Il Barbiere)—Rossini, Mr. Hinshaw. Any numbers of encores were responded to during the evening. It is safe to say that should the company give another concert in this city, that they would have the same large and enthusiastic audience.

EUROPEAN MEMBERS YIELD.

Prison Congress Adopts Principal of
Indeterminate Sentence.

New York, Oct. 6.—After opposing
for years the efforts of American crimi-
nologists to induce the International
Prison Congress to endorse the prin-
ciple of the indeterminate sentence,
which underlies the reformatory sys-
tem, the European members of the
congress today yielded and resolutions
advocating this system was adopted.
The resolutions declared that the in-
determinate sentence should be ap-
plied to the mentally and morally de-
fective and that it also should be ap-
plied "as an important part of the re-
formatory system, to criminals, partly
young delinquents, who require refor-
mation and whose offenses are due
mainly to circumstances of an indi-
vidual character."

The introduction of the system, it
was provided, should be conditioned
on the following conditions:
That prevailing notions of guilt and
punishment are incompatible with the
people of the indeterminate sentence;
that an individualized treatment of
the offender be assured; that the
prison board be so constituted as to
exclude all outside influences and to
consist of a commission made up of at
least one representative of the magis-
tracy, at least one representative of
the prison administration and at least
one representative of medical sci-
ence."

It was declared to be advisable to
fix the maximum duration of the sen-
tence only during such a period as it
might be necessary because of the
novelty of the institution and lack of
experience with it.

The foreign delegates are said to
have been won over to the cause of
the indeterminate sentence by ob-
serving its successful application dur-
ing their ten days' tour of the congress,
prior to the meeting of the congress.

Other important resolutions adopted
recommended legislation providing for
the following:

The extension of probation with
some central authority in each country
to exercise general supervision over
probation work.

The consideration of participation in
criminal acts or agreements as an ag-
gravating circumstance and the aug-
mentations power of the courts to in-
crease the penalty for such offenses.
Penal procedure for young delin-
quents different from that applied to
adults with special care for the
child's welfare and with a view to
keeping the child as far removed as
possible from the atmosphere of a
court or prison.

Reformation treatment, combined
with a system of liberation and parole,
under suitable guardianship and su-
pervision on advice of a suitable board
with special treatment for adolescent
criminals, sufficiently long to permit
of the full application of all possible
means of reformation.

Separate confinement as far as pos-
sible for prisoners awaiting trial and
those serving short sentences.

Making parents responsible for the
wrong-doing of their children; com-
pelling fathers to support their child-
ren; allowing them to be taken
from unit homes and properly placed.

Manchester, England, Oct. 6.—The
double between the federation of mas-
ter cotton spinners, which resulted in
the lockout of 130,000 operatives, was
settled today and the mills reopened
on Monday.

The operatives agreed to arbitrate
the case of George Howe, whose dis-
charge from the Fern mill at Oldham
precipitated a local strike and result-
ed in a general lockout. The men
agreed that Howe should be given
work in another mill pending the arbi-
tration of his grievance. Howe was
discharged when with the support of
his union he refused to clean the ma-
chinery which was operated on the
ground that the cleaning was not prop-
erly a part of his work.

of the town commissioners last night
the near-beer license was raised from
\$100 to \$500. The license on the
local beer saloon will expire the first
of next month, the proprietor ap-
peared before the board to see about re-
newing his license, inquiring into the
hours, etc., and the matter was taken
up with the above result. The pros-
pects for the near-beer business in
Hamlet is rather gloomy.

LISBON FIGHTING
MAY BE RENEWED

(Continued From Page One.)

American Consul Heard From.
Washington, Oct. 6.—The State De-
partment received a dispatch today
on the Portuguese situation, the cable-
gram being a belated message from
Minister Gage, whose advices had
been fully covered by press dispatches.
Even Viscount de Alto, the Portuguese
minister, who has secluded himself
during the governmental transforma-
tion at Lisbon, did not get in touch
with the department.

This government has received no
communication from the provisional
republic. And when the time comes
to reorganize it, it is expressly or im-
pliedly, or to refuse to recognize it,
there are ample precedents to govern
this government's course.

Premature recognition has to be
guaranteed against, for it constitutes in-
tervention, an act, however, which
was committed by France when it re-
cognized this country in 1778.
The fleeing young King Manuel was
the recipient of a pretty message of
sympathy from the United States
when his father was assassinated in
February, 1908. Congress passed res-
olutions of condolence and President
Roosevelt called to Manuel that "The
American people feel a peculiar bond
of sympathy with the royal family of
Portugal in their great affliction."

The American Minister Bryan later
advised this government that the sym-
pathetic action at Washington "had
a very happy effect" at Lisbon.

There is considerable speculation
among officials here as to what effect
the revolution in Portugal may have
on conditions in other monarchistic
countries.

Attitude of Spain.

Madrid, Oct. 6.—After a meeting of
the cabinet this afternoon, which was
presided over by the King, Premier
Canalejas announced that Spain's at-
titude towards events in Portugal
would be the same as the other pow-
ers.

Senor Azcarate, first vice-president
of the Chamber of Deputies and a
republican, made an impassioned
speech in the chamber, declaring that
he assumed that the Spanish govern-
ment would observe the strictest neu-
trality in the change of administra-
tion in Portugal, for Spain, more than
any other nation, was obliged to re-
main neutral.

He asked the government to ex-
plain unequivocally the meaning of
the dispatch of troops to the frontiers
and the three warships to Lisbon. He
vigorously protested in the name of
the Spanish republicans that they
were not permitted to manifest sym-
pathy towards the Portuguese move-
ment.

It is declared here that the English
warships now at Lisbon are under
instructions to guard the life of the
King and protect the lives and prop-
erty.

Premier Canalejas declared in re-
ply to Deputy Azcarate that the gov-
ernment's advice from Lisbon was so
contradictory that it did not con-
sider the proclamation of a republic
as a definite fact. He added that there
were persistent rumors that the night-
ing had been resumed at Lisbon, but
where the monarchist troops had re-
ceived reinforcements. Premier Can-
alejas added: "We have sent two war-
ships to the Tagus to protect, if neces-
sary, Spanish subjects and to watch
events, although our diplomatic repre-
sentatives have not yet transmitted to
us any official news. We have not
accumulated troops on the frontier, but
have given instructions to those
"arrived there, in case of eventual-
ties."

Oporto, October 4.—(Via frontier).
When the news reached here that a
revolution had broken out at Lisbon,
a vast crowd ran through the streets
shouting and cheering. They gathered
in front of the building of the Republi-
can newspaper Patria and took part in
an enthusiastic demonstration. A
large force of police was sent to the
scene and attempted to disperse the
crowd by extremely violent methods,
but they were received with showers
of stones and other missiles, many of
which were thrown from the windows
of the newspaper. The police then
charged fiercely, many being quite se-
riously wounded. Many arrests were
made, but the prisoners were soon re-
leased. There is great unrest in Opor-
to.

Brest, France, October 6.—The min-
ister of marine has ordered the cru-
iser Admiral Aube to proceed to Lis-
bon.

Bordeaux, October 6.—Passengers
arriving here from Madrid report that
heavy reinforcements of gendarmes
are rushing into Northern Spain and
that the gendarme escort of trains
has been doubled.

King Under British Protection.
Gibraltar, October 6.—King Manuel
of Portugal is now under British pro-
tection. The Portuguese royal yacht,
Amelia, having on board the King,
Queen-Mother, the Dowager Queen
and the Duke of Oporto, entered this
harbor at 11 o'clock this evening.
Shortly afterwards the King and
Queen came ashore and drove to the
summer residence of the Governor, Sir
Frederick Forestier-Walker, at Europa
Point.

MADEIRA NOW REPUBLIC.

Rebels In Control of Capital—People
Are Enthusiastic.

Paris, Oct. 6.—A special from Fun-
chal, the capital of Madeira, says that
the republic has been proclaimed
there. The people are enthusiastic,
but there has been no disorder.

FOR SUFFRAGAN BISHOPS.
Constitution of Episcopal Church of
America Was Amended.

Cincinnati, Oct. 6.—The House of
Deputies of the Protestant Episcopal
Church of America in convention to-
day passed an amendment to the con-
stitution, providing for suffragan bish-
ops throughout the dioceses of the
church. The vote on the subject was
90 to 22.

The debate brought out the fact that
the object of the suffragan bishops
was not only to look after the people
of a particular nationality or race, but
also to assist bishops who preside over
dioceses too large for any one bishop
to handle.

The amendment stated that these
suffragan bishops do not necessarily
succeed to the bishopric in the dioc-
eses to which they have been appoint-
ed in the case of the removal of the
bishops of these dioceses. On the other
hand they do not lose their opportu-
nity to succeed either to the bishop-
ric of the diocese in which they are
working, or to any other diocese, pro-
vided they are selected in the usual
way.

The amendment will have to be con-
sidered by the House of Bishops. Rev.
J. Lewis Parks, of New York, caused
a stir in the House of Deputies today
when he insisted on the exclusion of
a pamphlet, which had been distrib-
uted among the delegates.

He cited the rule against the intro-
duction of "controversial" pamphlets,
and was sustained.

The booklet was written by Bishop
Brown, of Little Rock, Ark. In it, he
opposed "the sacerdotal theory of ori-
gin, power and authority of the Chris-
tian ministry."

The bishop was attending the sitting
of the upper body of the church's or-
ganization when his booklet was out-
sted from the deputies hall.

In the House of Bishops today, the
amendment making the office of pre-
siding bishop elective, instead of au-
tomatically reverting to the eldest
bishop in point of service, was deci-
sively defeated.

WORLD'S SERIES.

Pikers' Bets 10 to 7 on the Cubs—
Johnny Evers.

Chicago, Oct. 6.—While betting on
the world's baseball series between
Chicago and Philadelphia has not yet
become brisk, several wagers have
been laid.

"Piker" bets have been laid at var-
ious places, the average price being
10 to 7 on the Cubs, but those on the
long end now demand even money.
Most of the wagers were placed be-
fore the injury to Johnny Evers and
the layers contend that with him out
of the game it is an even money con-
test.

Ocala, Fla., Oct. 6.—Deputy Sheriff
Hudson, who was wounded by William
Summerville yesterday, died this morn-
ing. Ex-Sheriff Gordon, who was shot
at the same time, is not expected to
live. These are the two officers who
attempted to arrest Summerville before
he committed suicide.
